## INTRODUCTION

### PURPOSE OF THE STUDENT AND FAMILY HANDBOOK & POLICIES AND PROCEDURES MANUAL

Welcome! This Student and Family Handbook & Policies and Procedures Manual (this “Handbook”) is intended to serve as a guide to help students and their families learn about policies and rules of the Collaborative as well as to set forth basic rights, responsibilities, and expectations of students.

Please understand that no set of rules or guidelines can cover every conceivable situation that may arise at a school or the Collaborative. The rules, policies and procedures set forth in this handbook are intended to apply under normal circumstances. However, from time to time, there may be situations that require immediate or nonstandard responses. This handbook does not limit the authority of the Collaborative to deviate from normal rules and procedures set forth in this handbook. The Collaborative reserves the authority to deal with individual circumstances as they arise in the manner it deems most appropriate taking into consideration the best interests of the Collaborative, its faculty, employees, students, and the community.

Please take the time to familiarize yourself with the contents of this handbook. The Collaborative is hopeful that the handbook will answer many questions you may have about the Collaborative, its programs, rules, and policies. **Parents and students are instructed to sign and return Parent/Student Acknowledgement of Receipt of the Student and Family Handbook & Policies and Procedures Manual (Appendix J) and return it to the Collaborative school/program in which the student participates.**

Please feel free to contact the principal of the Collaborative program of which your child is enrolled should you have any questions concerning this Handbook.

### ABOUT THE COLLABORATIVE

Valley Collaborative (the Collaborative) is an affiliation formed by geographically proximate public school districts for the purpose of better serving the needs of eligible students. Member school districts include Billerica, Chelmsford, Dracut, Groton-Dunstable Regional, Nashoba Valley Technical School District, North Middlesex Regional, Tewksbury, Tyngsborough, and Westford.

The Collaborative is a Massachusetts Department of Elementary and Secondary Education (DESE) approved public school entity that provides high quality academic and transitional services, and related therapies (speech and language, physical therapy, occupational therapy, home facilitation, behavior intervention, etc.) to individuals referred by local school districts and social service agencies. The Collaborative also provides ongoing professional development and training experiences for educators and educational agencies.

The Collaborative’s academic programs are designed to provide individualized educational programs in the least restrictive setting. Student progress in each program is carefully monitored. Programming is adjusted as needed to assure progress and transition to the next less restrictive program as soon as appropriate.

The Collaborative strives to maintain a close partnership with the local sending school and parents<sup>1</sup> of students served by the Collaborative, and is proud to serve and meet the evolving needs of students, the community, and member and sending school districts.

### **GUIDING PRINCIPLES**

1. The Collaborative is dedicated to doing what is in the best interest of the people we serve with a common goal to be supportive and compassionate.
2. The Collaborative values the reputation we have built through understanding and quickly responding to the needs of students, the community, and member and sending school districts.
3. The Collaborative is committed to providing cost effective services.
4. The Collaborative takes pride in its professionalism, high standards, integrity, and dedication to excellence in education and technology.
5. The Collaborative strives to create new opportunities through diverse, flexible, and cutting edge solutions.
6. The Collaborative nurtures a collegial, supportive work environment built on trust, respect, and continuous professional growth and teamwork.
7. The Collaborative empowers all employees through collaborative problem solving, shared decision-making, and strong leadership and direction.
8. By collaboratively pooling resources, we are able to realize economies of scale, which the Collaborative's member and sending school districts could not achieve individually.

<sup>1</sup>For the purposes of this Handbook, the word "parent" shall mean the biological, adoptive, or foster parent of a child; a guardian (but not the state if the child is in state care); an individual acting in the place of a biological or adoptive parent (including a grandparent, step- parent, or other relative) with whom the child lives; an individual who is legally responsible for the child's welfare; or an individual assigned to be an educational surrogate parent.

# **COLLABORATIVE PROGRAM AND SCHOOL POLICIES AND PROCEDURES**

## **SCHOOL CANCELLATIONS**

### **School Closing Announcements**

On occasion, the Collaborative may need to close school because of bad weather or an emergency situation. Announcements for school cancellations, delayed openings, and early release will be made on AM radio, WBZ (1030), television channels 4 and 7, and the Collaborative website: [www.valleycollaborative.org](http://www.valleycollaborative.org).

### **Program and School Closings**

In the event of inclement weather or an emergency, the Collaborative programs will be closed in accordance with the public school system of the town in which they are located. Also, if a town where a student lives closes schools due to inclement weather, students in that town will not be provided with transportation. The Collaborative programs co-located within member public schools will be closed in accordance with the school in which they are co-located. Collaborative programs will follow public school systems for closings as follows:

- 40 Linnell Circle, Billerica MA                      Billerica Public Schools
- 19 Main Street, Townsend, MA                      NMRSD Public Schools
- 135 Coburn Road, Tyngsborough, MA                      Tyngsborough Public Schools

### **Early Release**

In case of inclement weather or an emergency that develops in the middle of the day, the Executive Director may make the decision to release students early in the sake of safety. Additionally, if the town in which a program is located has an early release, the Collaborative classroom in that town will also have an early release. In the event of an early release, the Collaborative will contact the parents of students before they are sent home. If a parent will be out of contact on a particular day, they should let the driver and their child's teacher know in the morning where the Collaborative should send their child in the event of an early release.

**NOTE: Parents of students should make sure that their child has a current emergency card with proper emergency contact information, including the contact information of alternative caretakers.**

## **STUDENT SAFETY AND EMERGENCIES**

### **Lost and Missing Children**

Very rarely, a child may leave home in the morning but not arrive at school, or may leave school but not return home. If a child is lost or missing, their parent should call the Collaborative school or program in which their child is enrolled first. If no one answers, they should call "911." The Collaborative will work with local authorities, including the local police department and the Department of Children and Families (DCF), as appropriate, to locate missing children and will keep the parents informed until the child is found.

**Runaway Student**

A “runaway student” shall be defined as: the student has left the classroom, assigned areas with staff, or school environment without permission and is exhibiting unsafe and/or noncompliant behavior. A student that has left his or her designated space, but is within the immediate area and within the staff’s visual field is not a runaway student.

If a student runs off school grounds the following procedure will be implemented:

- Immediately call the local police department.
- Notify the Executive Director.
- Complete an Incident Report form as soon as possible.
- The principal or Executive Director will notify the parent and LEA.
- The Executive Director will notify the DESE.
- The Collaborative will file all notifications and Incident Reports in Student Record.

**Medical Emergencies**

Please refer to the student’s school’s policy for handling all health emergencies in the particular school or program in which the student is enrolled. Such emergency policies shall contain (1) local emergency response system telephone numbers (including ambulance, poison control number, local emergency care providers, etc.); (2) persons to be notified, i.e., parent, licensed prescriber, etc.; (3) names of persons in the school trained to provide first aid and cardio-pulmonary resuscitation; (4) scheduled programs for staff to be trained in first aid and CPR; (5) provision of necessary supplies and equipment and; (6) reporting requirements.

**Release of Student to Adults Other than Parents**

Collaborative schools and programs will not allow anyone other than a child’s custodial parents to take the child away from school. If a parent wants a relative, friend, or care provider to pick up a student at school, the parent must give written permission or call the program or school. If a parent calls, the program or school must verify that it was the parent making the call. The individual must show identification before the program or school will release the student.

**Whole School or Community Emergencies**

There may be instances where there is a disaster or community emergency. In such instances, the Collaborative will work to reunite parents with their children if the program school is in containment or needs to be evacuated. Occasionally, there may also be a need to increase the level of security because of a possible disturbance in the community. When this happens, visitors may not be allowed into the Collaborative or school, and students and staff may not be allowed to leave.

**Emergency Procedures**

The Collaborative will develop and ensure that staff are familiar with emergency procedures, including emergency evacuation and lock down procedures for their building. During an evacuation, the priority is to get all students out of the building in an orderly, prompt, and safe manner. Staff should make arrangements in advance with the building principal (or designee) to provide additional assistance for the evacuation of any student requiring such assistance.

Collaborative emergency procedures and preparation include:

- A minimum of 2 evacuation and lock down drills conducted for each classroom annually;
- Initial training, including a walk-through of the setting, identification of sprinkler and fire extinguisher locations, and location of emergency number postings;
- Embedded program strategies to help all students understand the nature of the drills;
- Special provisions for the evacuation of any mobility-impaired student;
- Identification of the location of emergency information for students to be taken during an evacuation;
- A written log of each evacuation or lock down drill report sheets that includes date, time elapsed, participants (students and staff), witnesses, etc.

## **REPORTING CHILD ABUSE AND NEGLECT**

M.G.L. c. 119 § 51A makes administrators, teachers, school nurses, guidance counselors and other Collaborative staff members mandated reporters for purposes of reporting child abuse and neglect to the Department of Children and Families (DCF). Under M. G. L. c. 119, Section 51A, a Collaborative staff member who has reasonable cause to believe that a student under the age of 18 years is suffering physical, sexual, or emotional abuse, or neglect, by a parent, Collaborative staff member, or other caretaker, must immediately report the abuse or neglect either directly to the DCF or to the person designated by the Collaborative to accept those reports, who, in turn, must promptly report the abuse to the DCF. Collaborative staff must adhere to the following guidelines in the handling of suspected abuse and neglect cases.

- Each program will designate a Child Protection Team for assisting and follow-up to each case of suspected child abuse. The Child Protection Team will consist of the principal or his/her designee, a clinician (social worker or psychologist), the program nurse and the staff member(s) reporting the initial concern.
- The Child Protection Team consists of:
  - Mathew Gentile, , 40 Linnell Circle 978-528-7853
  - Melina Seitzinger, 40 Linnell Circle 978-528-7800 x 723
  - Pamela Walker, 135 Coburn Road 978-528-7840 x 806
- The program employee who has the initial concern will initiate with the principal or his/her designee the involvement of the Child Protection Team.
- An immediate meeting of the Child Protection Team will be convened to discuss the steps to be taken in order to determine whether and when to file a 51A Report. These steps may include:
  - Gathering additional information from the child; documenting any physical signs of abuse.
  - Gathering information from other people familiar with the child and his or her situation. Confidentiality must be maintained in these cases.
  - Consulting with the Department of Children and Families.
- The Child Protection Team will determine the process and individuals to be involved in filing a 51A Report.

- If the Child Protection Team decides that a 51A Report will be filed, the Team determines who will telephone the report to the nearest DCF Office.
- The principal or his/her designee is responsible for ensuring completion of the required written forms, which will be submitted to DCF within 48 hours of the oral report.
- Un-resolvable differences of opinion among the Child Protection Team members may inhibit filing as a Team. It is important to note, however, that if notified of the suspicion, the principal or his/her designee assumes the responsibility of reporting. If the principal or his/her designee is not immediately present or available, the designated person in charge will perform the principal or his/her designee's obligation.
- If the Child Protection Team decides to file a 51A Report, the Team will also decide who will inform the parents and when this will take place. It is recommended that the principal or his/her designee notify the parents. The timing of the notification of the parents should take into account that the essence of the M.G.L. c. 51A is that the child's welfare is the top priority. DCF has discouraged notifying the parent if the child will be placed at risk for further abuse when the facts of the interview are revealed. When this is the case, the Team should decide in consultation with DCF at what time the parents should be informed.
- The principal or his/her designee will notify and keep the Executive Director informed of the concern throughout the process. The Executive Director may be directly involved in the process at the request of either the principal or his/her designee or staff.
- The principal or his/her designee will inform the Executive Director within 24 hours of filing of the 51A Report and send a copy of the 51A Report for filing in an administrative file at the Collaborative Administrative Office, as well as a completed Incident Report form.
- If the suspected abuse/neglect is the result of an action of a staff member or another student, DESE Form 2 will be completed and forwarded to the Department of Elementary and Secondary Education.
- When DCF requests to interview the child at school, the principal or his/her designee will be available to join the interview if requested by DCF.
- Unless specifically mandated, no reference to the 51A Report will be made in the child's Student Record.
- If the student has an on-going case with DCF, a member of the Child Protection Team will initially attempt to contact the On-Going Worker of the case at DCF. If the students' On-Going Case Worker is unavailable, the On-Going Case Worker's supervisor will be contacted. In the event that neither person is available, the Team will follow the reporting policy as outlined above.
- If the student is 18 years of age or older, follow the above procedure and contact

the Massachusetts Disabled Persons Protection Commission to file a report.

### **IMMEDIATE NOTIFICATION**

In the event of a serious or unusual incident occurs, the Collaborative's Executive Director is notified immediately. Upon notification, the Executive Director directs the gathering of all available pertinent information from involved parties. The Executive Director meets with involved parties as necessary. The Collaborative Incident Report Form is to be completed by staff and included in the student record. The incident report form documents the incident, precipitating events prior to the incident, and follow up needed. The report form also documents notification to all parties of the incident. Serious incidents are those that result in injury, safety concerns, substantial discipline code violations, or emergency personnel responses.

In the event of a serious or unusual incident occurs, immediate notification by telephone, and by letter when appropriate, will be sent to the parents, Local Educational Agency ("LEA") representatives, any state agency involved in student care or program placement, and by mail to the DESE.

The protocol described below is followed for incidents that require immediate notification of the Department of Elementary and Secondary Education (DESE) or Department of Public Health (DPH). An Incident Report Form is submitted to DESE within 48 hours of the following types of incidents:

- Death of a student;
- Filing of a 51-A report with DCF, or a complaint to the Disabled Persons Protection Commission *against the school or a school staff member* for abuse or neglect of a student;
- Any action taken by a federal, state or local agency that might jeopardize the school's approval with the Department; and
- Any legal proceeding brought against the school or its employee(s) arising out of circumstances related to the care or education of any of its students regardless of state of residency.
- The hospitalization of a student (including out-patient emergency room visits) due to physical injury at school or previously unidentified illness, accident or disorder that occurs while the student is in the program; (For students with complex health care needs, this will also require notification of the Department of Public Health (DPH) through the emergency response protocol.)
- Student injury resulting from a motor vehicle accident during transport by school staff (including contracted staff) which requires medical attention;
- Serious student injury requiring emergency medical intervention resulting from a restraint;
- Student run away/bolting beyond building boundaries;
- Emergency termination of a student under circumstances in which the student presents a clear and present threat to the health and safety of him/herself or others pursuant to 18.05(7)(d);
- Any other incident of serious nature that occurs to a student.

### **COORDINATION WITH PUBLIC SCHOOL DISTRICTS AND THE IEP PROCESS**

#### **Student Referral and Admissions**

Prior to student placement in a Collaborative program, the LEA will forward a comprehensive referral packet to the program in which the student's enrollment is to be considered. Upon receipt,

the principal or his/her designee will work with the district to schedule a site visit and intake meeting with the parents and district, at which time the Intake Coordinator will provide detailed information about the program. Such information will include the Collaborative's purpose and services, policies regarding parent and student rights including student records, the health program including the procedures for providing emergency health care, and the procedure for termination of a student. The principal or his/her designee will also conduct a tour of the program to include the classroom in which the student would be placed. Prior to enrollment, the sending district and parents must provide: a current, signed Individualized Education Program (IEP), health and immunization records, and all required program forms.

### **Placement Meeting**

Upon acceptance to a Collaborative program, the LEA may schedule a Team meeting to determine placement. Team participants will include: parents, LEA designee, principal or his/her designee, classroom teacher, clinical and support services staff working with the student, designee of any district/agency cost sharing the placement (if applicable), and any other persons determined appropriate by members of the Team or invited by the parent. The placement shall meet the requirements of 34 CFR 300.552 and shall be held within ten school days following the meeting at which the Team developed the IEP. At the request of the parent, the placement meeting may be held at a later date.

### **Written Contracts**

It is the responsibility of the LEA to enter into written contracts with the Collaborative program in which a student is being placed. In each such contract, the Collaborative will provide the following assurances:

1. Assurances on the part of the Collaborative that its program(s) will comply with all elements of the IEP for the student and shall provide, in writing, to the LEA detailed documentation of such compliance through completion of required student progress reports.
2. The Collaborative will allow the placing school district to monitor and evaluate the education of the student and will make available, upon request, any records pertaining to the student to authorized school personnel from the LEA and the Department of Elementary and Secondary Education in accordance with the Massachusetts Student Record Regulations.
3. The Collaborative shall allow the placing school district and/or the Department of Elementary and Secondary Education to conduct announced and unannounced site visits and to review all documents relating to the provision of special education services to Massachusetts' students at public expense. Access to documents for the placing school district shall include general documents available to the public, documents specifically related to the student placed by such district, and other documents only to the extent they are necessary to verify and evaluate education services provided at public expense.
4. The Collaborative shall afford publicly funded students all the substantive and procedural rights held by eligible students, to be educated in the least restrictive environment, and shall comply with all other applicable legal requirements of the regulations and applicable policy statements and directives issued by the Department of Education and the

Massachusetts Department of Elementary and Secondary Education.

5. The Collaborative assures the LEA that it does not deny a student access to its programs or services on the grounds of race, color, age, disability, gender, gender identity, religion, national origin, or sexual orientation.

Students of all Collaborative programs are entitled to protections and standards in accordance with:

- The MA DESE's Program and Safety Standards for Approved Public or Private Day and Residential Special Education School Programs (603 CMR 18.00).
- The Massachusetts Special Education Regulations (603 CMR 28.00).
- The Individuals with Disabilities Education Act (IDEA) of the U.S. Federal Regulations.
- The Americans with Disabilities Act (ADA) (504)

### **Program Oversight**

The Collaborative is responsive to the LEA, in ensuring that the student's IEP is being appropriately implemented and that the service delivery is aimed at assisting the student meet the goals identified within the student's IEP, and welcomes site visits by the LEA for program monitoring. Program visits by the LEA are documented in applicable student records. The Collaborative ensures that instructional groupings do not exceed the applicable guidelines of student staff ratio and age span. Student staff ratios do not exceed 8 students to 1 certified special educator, 12 students to 1 certified special educator and 1 assistant. If a situation arises that necessitates exceeding the above ratios, the Collaborative will provide written notification, including the reason, to the DESE, parents, and involved LEAs. The age span of instructional groupings does not exceed 48 months. If justified, the Collaborative will seek approval from DESE for a wider age span prior to increasing the age range.

### **Team Meetings**

It is the responsibility of the LEA to schedule Team meetings in conjunction with Collaborative staff. Team participants will include: parents/guardians, LEA designee, appropriate Collaborative staff, designee of any district/agency cost sharing the placement (if applicable), and any other persons determined appropriate by members of the Team or invited by the parent/guardian.

Annually, and at the 3-year eligibility re-determination, the Team will evaluate the appropriateness of the student's placement in his/her Collaborative program as it relates to the student's needs as outlined within the student's IEP. Full consideration will be placed on transitioning the student to a less restrictive environment and, if determined appropriate, a transition plan will be implemented. The team will discuss annually the student's transition and document its discussion on a Transition Planning Form. The Team will then prepare a new IEP for continued placement at the Collaborative program or movement to a new setting.

Testing for 3 year re-evaluations is the responsibility of the sending district. Collaborative program staff will be available to complete educational assessments. The sending district must provide 30 school days prior notification is required for testing completion.

### **IEP Development and Implementation**

The principal or his/her designee is responsible for overseeing the implementation of all components of the student's IEP.

- Where the IEP of the student in need of special education has been accepted in whole or in part by that student's parent, the Collaborative provides the mutually agreed upon services without delay.
- At the beginning of each school year, there must be an IEP in effect for each enrolled student. No student will be placed in a Collaborative program without a signed and accepted IEP and Placement Page.
- Each teacher and provider described in the IEP is informed of his or her specific responsibilities related to the implementation of the student's IEP and the specific accommodations, modifications, and supports that must be provided for the student under it.
- The Collaborative does not delay implementation of the IEP due to lack of classroom space or personnel, provides as many of the services on the accepted IEP as possible and immediately informs the responsible school district and parents in writing of any delayed services, reasons for delay, actions that the Collaborative is taking to address the lack of space or personnel and offers alternative methods to meet the goals on the accepted IEP. Upon agreement of the responsible school district and parents, the Collaborative implements alternative methods immediately until the lack of space or personnel issues are resolved.

### **Financial Obligations/Costs**

When eligible disabled children are placed in a program with an IEP by their local school district, the local sending school is fiscally and programmatically responsible. All needed services are provided free of charge to the family.

If parents unilaterally place their child into a Collaborative program, they are responsible for tuition, transportation and all costs incurred. Parents in such cases are expected to pay monthly bills one month in advance or the child's placement may be terminated. If a child or parent injures, defaces, destroys or otherwise damages people, buildings, equipment, materials, vehicles or other aspects of the program, they are personally liable.

### **Student Involvement**

Upon reaching 14 years of age or upon entering the ninth grade, whichever comes first, the student will be invited to participate as a member of the Team and participate in the development of his/her own IEP. The staff of the program and the parents may choose to extend these rights to students under the age of 14 or to students who have not yet entered the ninth grade.

If for any reason, the student has not participated as a member of the Team, written documentation as to the circumstances for non-participation will be included within the IEP under the Additional Information section of the IEP.

### **Student Participation and Consent at Age of Majority**

When the student reaches the age of 18, he or she will have the right to make all decisions in relation to his or her programs and services. The LEA has the obligation to obtain consent from the student concerning the student's special education programs and services. To continue the student's special education program, the Collaborative will work together with the LEA under the following conditions:

1. The parent will continue to receive written notices and information but will no longer have decision-making authority, except as provided below.

2. If the parent has sought and received guardianship from a court of competent jurisdiction, then the parent retains full decision-making authority.
3. The parent shall not have authority to override any decision or lack of decision made by the student who has reached the age of majority unless the parent has sought or received guardianship or other legal authority from a court of competent jurisdiction.
4. The student, upon reaching the age of majority and in the absence of any court actions to the contrary, may choose to share decision-making with his or her parent (or other willing adult), including allowing the parent to co-sign the student's IEP.
5. Such choice shall be made in the presence of the Team and shall be documented in written form.
6. The student's choice shall prevail at any time that a disagreement occurs between the adult student and the parent or other adult with whom the student has shared decision-making.
7. The student, upon reaching the age of majority and in the absence of any court actions to the contrary, may choose to delegate continued decision-making to his or her parent, or other willing adult. Such choice shall be made in the presence of at least one representative of the school district and one other witness and shall be documented in written form and maintained in the student record.

### **Transitioning to a Less Restrictive Environment**

The programs of the Collaborative ensure flexible procedures and mechanisms that maximize opportunities for enrolled students to gain the capacity to return to a less restrictive educational program. Moving to a less restrictive setting may include, but is not limited to, a capacity for part-time attendance at a public school or other community program or a period of transition from one program option to a less restrictive program. When a student successfully reaches the performance expectations identified during the intake/placement process, the Team will develop a re-entry plan to an LEA school program.

As a component of the intake/placement process, the sending district will identify student performance expectation for the re-entry to a public school setting. The principal or his/her designee will work with the sending district to complete a student termination plan form. This form will be reviewed at the annual Team meeting through the IEP vision statement process.

At each student's annual Team meeting, program staff, the sending district, parents and students (if applicable), through the vision statement process, will identify if the student will be likely to transition back to the public school setting within that academic year. If it is determined that the student has reached the goals as outlined in the student termination plan prepared by the sending district at intake, the Team will then develop and implement the Student Termination Implementation Plan addressing the following areas:

- Background information – statement of the student's academic/behavioral/social-emotional needs and progress with specifics regarding what has been crucial to the student's success
- School history – recommendation for school placement
- Current educational needs – academic levels, accommodations, and materials needed in all

- subject areas
- Access to regular education classes
- Technology needs
- Behavioral needs recommendations – plan, preferred activities, motivators, frequency
- Learning style accommodations
- Additional therapies – short statement of current functioning, accommodations, specific materials, service delivery
- Therapeutic needs – individual/group therapy, daily/weekly check-ins/progress reports, outside therapist/community agency/physician(s) name and telephone numbers
- Goals – transition into school, preparation for class

### **Planned Termination**

In circumstances where a student's needs can no longer be met in a Collaborative program, the Collaborative will notify the LEA of the need for IEP and Placement meetings and will provide notice of this meeting to all appropriate parties at least ten (10) days in advance of the intended date of the meeting. The purpose of the meeting is to share information and data with the goal of developing a clear and specific termination plan so that the student can transition from the Collaborative program in a planned and organized manner.

In instances where the termination is initiated by the parents or the LEA, the LEA must give the Collaborative 30 days prior notice of the student's termination. The district will be billed for a minimum of 30 days from the date of termination notice.

### **Emergency Termination of Enrollment**

Consideration of termination of enrollment is part of the Team process in determining appropriate placement for a student. Every effort is made to continue enrollment for students that may be in crisis. However, if a student presents with severe behavioral incidents requiring more support and intervention than is routinely part of the Collaborative's therapeutic procedures, the following processes occur:

1. An emergency Team Meeting is convened to discuss alternative strategies to address the student's presenting issues.
2. The Team develops an interim action plan which can include, but is not exclusive to:
  - a. 1:1 staff supervision and support
  - b. Change in length of school day
  - c. Change in daily academic and behavioral expectations
  - d. Change in environment within the school program
  - e. Addition of therapeutic/clinical intervention
  - f. Or any other option as determined by the Team
3. A follow-up Team meeting is scheduled four (4) to six (6) weeks following the interim action plan to assess the student's status.

In the event of an emergency situation, it is the conclusion of the Team that the enrollment of a student should be terminated, the following assurances are given:

- The enrolling public school district shall receive immediate notification (see Immediate

### Notification - Policies and Procedures).

- In accordance with 603 CMR 28.09(12), at the request of the district, the student's termination can be delayed for two (2) calendar weeks to allow the district to convene an emergency Team meeting or to conduct other appropriate planning discussions.
- By mutual agreement, the student's termination can be delayed for longer than two (2) weeks.
- Staff will be available at the request of the enrolling district to attend the emergency Team meeting with the parents, the public school representatives, and any other agencies responsible to the student.

An emergency situation will be defined as: a student presents a clear and present threat to the health and safety of him/herself or others.

If a student has been hospitalized due to an emergency situation, a re-entry after hospitalization meeting will be scheduled. The Team may determine an emergency termination is required.

### **Written Notification and Communication**

The principal or his/her designee has the responsibility of notification and communication with school districts. The principal or his/her designee may delegate other program staff in fulfilling the Collaborative's obligation to collaborate with the school districts. Such persons include the school secretaries, educational coordinators, clinicians, and nurses. The following is a guideline for delegation of collaboration and communication with sending districts.

School Secretary: Distribution of reports; scheduling meetings; distribution of attendance records; and medical emergency, injury or hospitalization

Clinicians: Student and family related issues; medical emergency, injury or hospitalization; and behavior implementation plans/functional behavioral assessments

Educational Coordinators/Teachers: Alignment with district curriculum, education and graduation requirements (if applicable); IEP implementation/revision, development/implementation of move to less restrictive environment or planned termination, and Team meetings; written progress reports to be written by service providers and sent to parents and LEA in a timely manner; ensure participation in state assessment programs in accordance with the student's IEP; progress reports; and student and family related issues

Principals/Executive Director: Student and family related issues; alignment with district curriculum, education and graduation requirements (if applicable); instances requiring disciplinary action; IEP implementation/revision, development/implementation of move to less restrictive environment or planned termination, and Team meetings; behavior implementation plans/functional behavioral assessments; manifestation determinations; medical emergency, injury or hospitalization; runaway student; filing of a 51A Report against a staff person (applicable sending district); and death of a student

## **PROGRESS REPORTS**

All Collaborative programs will complete progress reports four times each year (quarterly progress reports). In all cases the quarterly progress reports will be provided to the LEA and to the parent(s) and will be kept on file at the Collaborative.

Quarterly progress reports will report to parents the progress of each IEP goal individually. Service providers must comment on whether they anticipate the student being able to meet the goal by the end of the IEP period. If they believe that the student will be unable to meet the goal, that must be indicated on the progress report and a Team Meeting must be held to amend the IEP. Progress Reports must answer two questions for each goal: (1) What is the student's progress toward the annual goal and (2) is the progress sufficient to enable the student to achieve the goal by the end of the IEP period? Information included on the quarterly progress reports will be derived from data collected throughout the reporting period.

Where a student's eligibility terminates because the student has graduated from secondary school or exceeded the age of eligibility, the Collaborative will provide the student with a summary of his or her academic achievement and functional performance, including recommendations on how to assist the student in meeting his or her postsecondary goals.

Copies of progress reports will be maintained in student records

## **STATE/DISTRICT WIDE ASSESSMENT**

Both the Massachusetts Education Reform Law of 1993 and the Individuals with Disabilities Education Act (IDEA) requires the full participation of students with disabilities in state and district wide testing programs. The Massachusetts Education Reform Law requires all students in publicly supported programs, including students with disabilities, to participate in the Massachusetts Comprehensive Assessment System (MCAS), including students in educational collaboratives. The IDEA requires that all children with disabilities participate in state and district-wide assessment programs, either:

- Routinely, as do non-disabled students; or
- With appropriate accommodations and modifications in administration where necessary; or
- Through alternate assessments for students who cannot participate in state and district wide assessments as determined by their IEP Team.

The IDEA also requires that students with disabilities be given the opportunity to participate in and make progress in the general education curriculum, with emphasis on being provided the supports and services necessary to ensure their success in this regard. This means that all students, even those with significant disabilities, must receive instruction that addresses, at minimum, the skills, concepts, and information supported by the learning standards in the Massachusetts Curriculum Frameworks that are taught to all students.

It is the responsibility of the principal or his/her designee to:

- Ensure that all enrolled students have access to the general curriculum and participate in MCAS per state regulations.
- Ensure that all students with disabilities in the tested grades participate in MCAS in the manner prescribed by their IEP Team, and in accordance with student participation requirements described in the MCAS Alternate Assessment Educators Manual, and other MCAS publications.
- Allocate and coordinate Collaborative resources, including personnel to assist the student's primary teacher, in order to ensure timely and appropriate participation by designated students with disabilities in MCAS.
- Provide assurances that complete and accurate information on each student participating in MCAS is indicated on the student identification form, student answer booklets, and other forms as appropriate, including proper identification and labeling of student testing materials or portfolio.
- For students participating in MCAS Alternate Assessments, ensure that student portfolios are completed and submitted no later than the due date as assigned by DESE.
- For students participating in MCAS Alternate Assessments, monitor the alternate assessment process to ensure that student work is neither altered nor fabricated in a way that provides information that is false or portrays the student inaccurately.

The student's IEP Team is responsible for determining how each student will participate in MCAS, what accommodations, if any, will be necessary and the format of the Alternate Assessment portfolio (*if Alternate Assessment is the assessment of choice*).

### **GRANTING OF DIPLOMAS AND CERTIFICATES**

In accordance with M.G.L. c. § 691D and M.G.L. c. 71B §.1, the requirements of the competency determination are a condition for high school graduation or receipt of a high school diploma. Students and Parents should visit the DESE website to learn about the competency determination graduation requirements and should feel free to discuss such requirements with Collaborative staff. The following procedures will be used in awarding diplomas to Collaborative students:

- All students of the Collaborative will participate in the MCAS testing program (or alternate assessment) according to the federal special education law and MCAS administration guidelines published by the Department of Elementary and Secondary Education.
- At least one year in advance of a probable graduation date, the sending public school district has the responsibility to convene a Team meeting for annual review of the IEP. At this meeting, the public school district must indicate whether the student is expected to meet high school graduation standards and communicate the likelihood of graduation to the parent at the meeting and in the IEP that is proposed for the student. It is recommended

that this dialogue begin upon the student's entrance into a Collaborative high school program.

- The standards for the award of a high school diploma include requirements set by the district and state standards including the competency determination standard. However, by choosing to send a student to a Collaborative program, the public school district is accepting the program as sufficient to meet local requirements that are necessary for graduation in addition to the competency determination.
- Students funded by their public school who have satisfied the Collaborative curriculum and attendance requirements, and who have achieved a passing or higher grade on the MCAS requirements are eligible for a high school diploma from their own sending public school.
- A sending public school district may issue a "certificate" to a Collaborative student. The certificate may recognize achievement, attendance, course completion, or participation.
- A Collaborative student who receives a certificate, but who has not received a high school diploma or its equivalent will continue receiving publicly funded special education services as long as the student continues to meet the eligibility criteria for such services. The right to continued services will end when the student turns 22 or receives a high school diploma or its equivalent, whichever comes first.
- A certificate issued to a Collaborative student will only be called a "diploma" and indicate "high school graduation" if the student has met the state MCAS competency determination standard.
  - In these circumstances, the sending public school district may award a high school diploma to the student.
  - If the high school diploma is awarded, then the diploma will indicate that the student has met state standards for high school graduation, and that the sending public school district awards the diploma.

### **LIMITED ENGLISH PROFICIENT (LEP) STUDENTS**

The Collaborative takes responsibility for helping to identify resources and services for Limited English Proficiency (LEP) and English Language Learners (ELL) and will work with referring districts to ensure the language needs as well as the behavioral and social needs of these students are met.

All LEP and ELL students are afforded the same opportunities to access and participate in the Collaborative programs and services as other students. The Collaborative, in conjunction with the sending school district, implements necessary program modifications and support services to identify and effectively serve students who need special language assistance. Such program and support services are based on sound education theory, provide for English language development, provide for meaningful participation of limited English proficient students, and are evaluated and appropriately revised in an ongoing manner. These programs and support services are demonstrably useful in assisting students receiving such program modifications and services to gain English language proficiency. In addition, the Collaborative arranges for a person or community organization to provide

translation services for any notices to parents/guardians and/or students and program information or material regarding the Collaborative to ensure the civil rights of any student and his/her family with limited English proficiency. Programs modifications are developed based on the individual student. Frequent assessments are completed to ensure student progress and to determine when modifications and support services are no longer required.

If a district's IEP Team determines that an LEP student will be placed in an the Collaborative program, the Collaborative will work with the sending school district and the family to determine how to meet that student's needs relative to accessing content through sheltered content instruction and/or developing English proficiency through additional instruction in English as a Second Language (ESL). When an LEP student enrolls, staff will consult with an ELL/ESL specialist (who delivers professional development in the category trainings) and with the sending district's ELL coordinator to ensure that the student's needs, special education and ELL, are being addressed.

### **HOME AND SCHOOL COMMUNICATION**

The Collaborative staff welcomes and encourages communication between school and home. The staff communicates with parents on a regular basis, through telephone calls, daily communication books and progress reports. Home contact keeps parents informed of student progress and fosters continuity of behavior support programs at home, in the community and at school.

Collaborative staff hold parent conferences and open houses as appropriate to discuss programs, goals, progress, issues and concerns. A Parent Advisory Council (PAC) is annually organized for the purpose of advising the school on matters that pertain to the education, health, and safety of the students. The PAC also holds parent workshops on a variety of current pertinent topics.

All communications with parents will be in clear and commonly understood words and are in both English and the primary language of the home if such primary language is other than English. If the Collaborative provides notices orally or in some other mode of communication that is not written language, the Collaborative keeps written documentation (a) that it has provided such notice in an alternate manner, (b) of the content of the notice and (c) of the steps taken to ensure that the parent understands the content of the notice.

### **OBSERVATION POLICY**

The goal of this observation policy is to allow a parent, consultant to the school system, or evaluator to observe a student or program in order to gain the information the observer is seeking with as little disruption as possible to the students, staff, and educational process.

Please understand that an evaluator hired by the parent is observing on behalf of the parent and, therefore, the parent may not simultaneously observe the student or program. Additionally, it is anticipated that an evaluator will have the appropriate credentials or expertise to perform the observation, and will be attempting to provide objective data as part of an evaluation about the student or program upon which educational decisions can be based.

Any potential observer must complete and submit an Observation Request Form (located in Appendix A ) at least five (5) days in advance of any requested date for observation, except in exigent circumstances. This form asks observers to be as specific as possible about their requests,

noting the purpose of their observation and whom or what they wish to observe. Due to the possible distraction caused by any visitor's presence, only one observer will be permitted to visit for two (2) consecutive classes/periods/therapy sessions or for a maximum of two (2) hours, at the discretion of the principal or his/her designee depending on the nature of the individual program being visited. Multiple appointments may be made to observe a variety of classes/periods/therapy sessions.

The principal or his/her designee shall have the sole discretion to approve observations and to determine the number, times, lengths, and dates of observations. Every effort will be made to accommodate the preferences of the observer as indicated on the "Observation Request Form" when possible. Under ordinary circumstances, observations are strongly discouraged during the first two weeks of school in September and January and during the month of June. After the form is submitted to the Collaborative, a designee of the principal will call the observer to schedule the visit and will send the observer written confirmation.

Observers are asked to be punctual on the date of the scheduled observation. Observers should arrive at the Collaborative fifteen (15) minutes prior to the scheduled observation to sign in and otherwise comply with visitor procedures as set forth in the "School Visitor Procedures" contained in this Handbook. Late arrivals may have to reschedule their visit or wait until the following period to enter a classroom. Visitors are asked to limit the materials they bring with them. Food, drinks, books, catalogues, test reports, laptops, and other materials are discouraged, but a notepad is expected. Observers should not speak to staff or students during the observation or otherwise disrupt the class or therapy in anyway. In advance of an observation, an observer may request a conference with appropriate staff members. Such conferences may be limited by the availability of the particular staff member and shall be arranged at the discretion of the principal. A designated Collaborative staff member will be assigned to accompany visitors throughout their observations and during such staff conferences.

### **SCHOOL VISITOR PROCEDURES**

While the Collaborative encourages the involvement of parents and community members in the education of the Collaborative's students, the Collaborative has a duty to protect the safety and confidentiality of its students, as well as to ensure that the educational process is not unnecessarily disrupted. As a result, certain rules and procedures must be followed to ensure that visits are beneficial to the visitors and not harmful to the students or the educational process.

Visitors will only be permitted to enter school buildings for purposes of pre-arranged meetings, visits, or observations. The only exception shall be for "quick visits" by parents for the purpose of dismissing a student, bringing in medications, dropping off forgotten lunches, gym clothes, etc. Such "quick visits" need not be pre-arranged; however, such visitors may not be permitted beyond the main office depending on the circumstances.

All visitors to the Collaborative must report to the main office immediately upon entrance into a school building. All visitors whose destinations are other than the main office must sign in, noting the time of their arrival and identifying the location and purpose of their visit. These visitors must wear a visitor badge at all times while in the school building. The principal or his/her designee will designate a staff member to escort visitors to their appropriate destination.

Upon completion of their pre-arranged meetings, visits, or observations, all visitors shall proceed directly to the main office. They must sign out, noting the time of their departures, and return their visitor's badges. Visitors may not proceed to any areas of the building other than the designated locations of their meetings, visits, or observations, without first returning to the main office and obtaining express administrative approval to access other areas of the building.

Please see the attached Observation Policy Form for more detailed procedures regarding arranging and attending an observation or visit of a program or classroom.

## **PARENTAL INVOLVEMENT**

### **Parent Advisory Council**

The rights of parents to be involved in the education and decision making regarding their child's program and services is welcomed by the Collaborative. The Collaborative community, which includes school personnel, parents, and students, recognizes parent involvement in the educational process as a critical factor whose importance cannot be over-emphasized. As a result, and in conjunction with Massachusetts State regulations, an Advisory Council consisting of parents of Collaborative students has been formed. Rather than replacing the individual LEA Special Education Parent Advisory Council, the Collaborative Parent Advisory Council (PAC) focuses on programs and emerging issues within the Collaborative. The PAC exists to give a formal channel for parent participation in the review of Collaborative policies, programs, and philosophy, as well as informing parents of their rights and assisting them with issues related to addressing the more intensive needs of students placed in the Collaborative's programs. The PAC aims to create a family-centered atmosphere to help families develop a sense of community and provide parents with support.

The Collaborative encourages feedback from the PAC regarding the education, health, and safety of students. The Collaborative PAC maintains its own officers and meeting schedule. The Executive Director is not directly involved with the PAC to allow the group a forum to address issues or concerns. As necessary, the Executive Director is available to meet with the PAC or confer with PAC officers. The Collaborative does not charge a fee for membership and welcomes all parents of the Collaborative.

Parents and guardians are valued members of the Team and essential to ensuring the school experience is positive for students. The Collaborative staff communicates regularly with parents/guardians to plan, evaluate, and share information. These interactions may take place in a variety of formal and informal ways including meetings, weekly reports, and phone calls.

Outreach to parents is organized on an annual basis for the sole purpose of establishing a Parent Advisory Council. This outreach begins in September of each school year. The PAC elects a parent representative on an annual basis. The school provides a co-chair on an annual basis. Current volunteers and telephone contact numbers are provided for all parents.

The PAC annually determines the frequency, duration, and schedule of meetings. The parent co-chair is responsible for developing an agenda for each meeting.

PAC may raise funds or participate in fund raising events. Any monies raised by the PAC will be kept in an account with the Collaborative Business Office. The parent chair or co-chairs must submit a Release of Funds form accompanied by the signature of two active parent participants

from the PAC to access funds from this account.

## **PARENT CONSENT AND NOTIFICATION**

The Collaborative collects consents for a variety of activities and protocols, including emergency medical treatment, medication administration, field trips, photographs and publicity.

Once a newly referred student is accepted for participation in a Collaborative program, the start date is not finalized until all consents and medical forms are returned by the parents or guardians.

Since the Collaborative is providing the program to the student at the request of the LEA, Collaborative staff work with each LEA to ensure that the annual consents are obtained prior to the end of the school year for the coming year as follows:

- Each year, a packet of consent forms and medical update forms are sent to each parent or guardian of an enrolled student with a self-addressed envelope.
- Any consents not received by the end of the school year triggers a call from the Collaborative to the family, reminding them of the need to return the forms. If there are questions or concerns expressed, a follow-up call is made by the principal to the family.
- If the consents have not been received by the end of June, the LEA Liaison is notified that without the signed consents and updated medical information, the student will not be able to enter the program on the scheduled start date.
- As necessary, the Collaborative will resend form packets, hand-deliver form packets and continue to monitor the status of the forms.

When applicable, the Collaborative will request parental consent for the following:

- Research
- Experimentation
- Fundraising
- Publicity
- Observation

The Collaborative's policy and procedures include, when applicable, notification pursuant to Parental Notification Law M.G.L. c. 71, § 32A concerning curriculum that primarily involves human sexual education or human sexuality issues.

## **CHANGE OF LEGAL STATUS**

If staff is notified of a change of legal status, the Collaborative Executive Director or principal will:

- Request a copy of official court documents.
- Enter official court documents into the Student Record, including restraining orders or other legal judgments.
- Notify the appropriate staff involved in the care and education of the student.
- In the event that a non-custodial individual attempts to violate a court order and attempts access to a student, the Collaborative is to be notified immediately.

- In the event that a non-custodial individual refuses to leave school property, local law enforcement authorities are to be notified immediately.
- Following any such event, an Incident Report form will be completed and forwarded to the Collaborative.

## **BEHAVIOR SUPPORT**

### **Student Behavior**

The goal of behavior support shall be to maximize the growth and development of the student and to protect the group and the individuals in it. The Collaborative directly relates consequences to the specific misbehavior and shall apply such consequences without prolonged delay. The Collaborative serves students who may, at times, display extremely unsafe behaviors. Collaborative staff uses de-escalation techniques and behavior support strategies to help students remain safe without the use of physical intervention. However, due to the nature of student behavior, it is sometimes necessary to physically intervene in order to keep students and staff safe.

### **Behavioral Programming**

Behavior support is an important aspect of Collaborative programs with the goal of maximizing the growth and development of each student. The variety and complexity of students' behavioral and response issues require a range of techniques. The long-term goal is to increase the internalization of control by the student. An important component of developing strategies for behavior intervention is an understanding of the function the behavior serves. Arrangement of the physical environment and classroom structure is an important management strategy. The placement of desks, availability of materials, length of work times, difficulty of tasks, establishment of predictable routines, and preparation of the child for changes in routine are all essential elements to managing student behavior successfully. The development and presentation of interesting and stimulating curriculum motivates students and is often the most successful management strategy.

### **Positive Reinforcement**

The Collaborative emphasizes praise and positive feedback for all students as well as formal reinforcement schedules as appropriate. Staff takes the student's level of functioning into consideration when developing reinforcement schedules and using a variety of behavioral techniques, target and define specific behavior(s). The goal of most programs is to continue the process until the student can display the identified behavior without external reinforcement.

### **Mild Restrictive Behavior Support Procedures**

When a student disrupts the learning of others, behavior support techniques may be utilized to assist the student in regaining control. Yelling, hitting, kicking, biting of self or others, or situations where a student's safety is in jeopardy are examples of instances when immediate intervention must occur. Recognizing cues and providing appropriate interventions to prevent further escalation are critical elements in successful behavior support.

### **Restraint Prevention and Behavior Support Policy and Procedures**

## I. BACKGROUND AND PURPOSE

The Massachusetts Department of Elementary and Secondary Education (DESE) establishes regulations governing the use of physical restraints on students. The Collaborative is required to follow the provisions of 603 CMR 46.00 which regulates the use of physical restraint on students in Massachusetts public school districts, charter schools, virtual schools and collaborative education programs. The purpose of this policy is to ensure that Collaborative students are free from the unreasonable use of physical restraint and that such an intervention is used only in emergency situations after other less intrusive alternatives have failed or have been deemed inappropriate. Physical restraint should be administered only when needed to protect a student or another from assault or imminent, serious physical harm. Physical restraint should be administered in a way that prevents or minimizes any harm to a student as a result of the use of restraint. This policy shall be annually reviewed and provided to program staff and made available to parents of enrolled students.

## II. DEFINITIONS

As used in 603 CMR 46.00, the following terms shall have the following meanings in this policy:

**Consent** means agreement by a parent who has been fully informed of all information relevant to the activity for which agreement is sought, in his or her native language, or other mode of communication, that the parent understands and agrees in writing to carrying out of the activity, and understands that the agreement is voluntary and may be revoked at any time.

**Mechanical restraint** means the use of any device or equipment to restrict a student's freedom of movement. The term does not include devices implemented by trained school personnel, or utilized by a student that have been prescribed by an appropriate medical or related services professional, and are used for the specific and approved positioning or protective purposes for which such devices were designed.

**Medication restraint** means the administration of medication for the purpose of temporarily controlling behavior. Medication prescribed by a licensed physician and authorized by the parent for administration in the school setting is not medication restraint.

**Parent** means a student's father, mother, or legal guardian or person or agency legally authorized to act on behalf of the student in place of or in conjunction with the father, mother, or legal guardian.

**Physical escort** means a temporary touching or holding, without the use of force, of the hand, wrist, arm, shoulder, or back for the purpose of inducing a student who is agitated to walk to a safe location.

**Physical restraint** means direct physical contact that prevents or significantly restricts a student's freedom of movement. Physical restraint does not include: brief physical contact to promote student safety, providing physical guidance or prompting when teaching a skill, redirecting attention, providing comfort, or a physical escort.

**Prone restraint** means a physical restraint in which a student is placed face down on the floor or another surface, and physical pressure is applied to the student's body to keep the student in the face-down position.

**Seclusion** means the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. Seclusion does not include a time-out.

**Time-out** means a behavioral support strategy in which a student temporarily separates from the learning activity or the classroom, either by choice or by direction from staff, for the purpose of calming.

### **III. USE OF RESTRAINT**

Mechanical restraint, medication restraint, and seclusion are prohibited. Such restraints may never be used.

Prone restraints are prohibited except on an individual student basis, and only under the following circumstances:

1. The student has a documented history of repeatedly causing serious self-injuries and/or injuries to other students or staff;
2. All other forms of physical restraints have failed to ensure the safety of the student and/or the safety of others;
3. There are no medical contraindications as documented by a licensed physician;
4. There is psychological or behavioral justification for the use of prone restraint and there are no psychological or behavioral contraindications, as documented by a licensed mental health professional;
5. The Collaborative obtained consent to use prone restraint in an emergency, and such use has been approved in writing by the principal; and,
6. The Collaborative has documented these circumstances in advance of the use of prone restraint and maintains the documentation.

Physical restraint, including prone restraint where permitted, will be considered an emergency procedure of last resort and is prohibited except when a student's behavior poses a threat of assault, or imminent, serious, physical harm to self or others and the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions, or such interventions are deemed to be inappropriate under the circumstances.

All physical restraints, including prone restraint where permitted, will be administered in compliance with this policy and 603 CMR 46.00.

Physical restraint will not be used:

1. As a means of discipline or punishment;
2. When the student cannot be safely restrained because it is medically contraindicated for reasons including, but not limited to, asthma, seizures, a cardiac condition, obesity, bronchitis, communication-related disabilities, or risk of vomiting;
3. As a response to property destruction, disruption of school order, a student's refusal to comply with a rule or staff directive, or verbal threats when those actions do not constitute a threat of assault, or imminent, serious, physical harm; or

4. As a standard response for any individual student. No written individual behavior plan or individualized education program (IEP) may include use of physical restraint as a standard response to any behavior.

Physical restraints will be limited to the use of such reasonable force as is necessary to protect a student or others from assault or imminent, serious, physical harm.

Nothing in this policy or 603 CMR 46.00 prohibits:

- (a) The right of any individual to report to appropriate authorities a crime committed by a student or other individual;
- (b) Law enforcement, judicial authorities or school security personnel from exercising their responsibilities, including the physical detainment of a student or other person alleged to have committed a crime or posing a security risk; or
- (c) The exercise of an individual's responsibilities as a mandated reporter pursuant to M.G.L. c. 119, § 51A.

#### IV. ALTERNATIVES TO PHYSICAL RESTRAINT

There are a variety of less intrusive intervention alternatives to physical restraint that may be appropriate under the circumstances. These alternative methods should be used prior to physical restraint. Physical restraints should only be used in emergency situations where these less intrusive alternatives have failed or have been deemed inappropriate under the circumstances.

Examples of less intrusive alternatives to physical restraint include, but are not limited to, the following:

**Verbal Directives.** A verbal directive is communicating what is expected behavior by clearly stating instructions and expectations.

**Brief Physical Contact.** Physical restraint does not include: brief physical contact to promote student safety, providing physical guidance or prompting when teaching a skill, redirecting attention, and providing comfort. Such brief physical contact is an alternative to physical restraint.

**Removals.** Removals are used only when it is necessary to move a child a few feet in order to hold them to safer position. Removal includes removal of a student from a classroom for in situations where behavior can escalate other student, creating a less safe situation. Removals are only for a short distance, i.e. out of the classroom to the hallway.

**Physical Escort.** Physical escort is a temporary touching or holding, without the use of force, of the hand, wrist, arm, shoulder, or back for the purpose of inducing a student who is agitated to walk to a safe location.

**Time-Out.** Time-out is a behavioral support strategy in which a student temporarily separates from the learning activity or the classroom, either by choice or by direction from program staff, for the purpose of calming. During time-out, a student must be continuously observed by a staff member. Program staff shall be with the student or immediately available to the student at all times. The space used for time-out must be clean, safe, sanitary, and appropriate for the purpose of calming. Time-out

will cease as soon as the student has calmed. Principal approval is required for a time-out of more than thirty (30) minutes based on an individual student's continuing agitation.

## V. PROPER ADMINISTRATION OF PHYSICAL RESTRAINT

**Trained Personnel.** Only personnel who have received training in accordance with this policy and 603 CMR 46.00 will administer physical restraint on students. Whenever possible, the administration of a restraint will be witnessed by at least one adult who does not participate in the restraint. These training requirements do not preclude a teacher, employee or Collaborative employee from using reasonable force to protect students, other persons or themselves from assault or imminent, serious, physical harm.

**Use of Force.** A person administering a physical restraint will use only the amount of force necessary to protect the student or others from physical injury or harm.

**Safest Method.** A person administering physical restraint will use the safest method available and appropriate to the situation subject to the safety requirements set forth in this policy and 603 CMR 46.00.

**Duration of Restraint.** All physical restraints must be terminated as soon as the student is no longer an immediate danger to himself or others, or the student indicates that he or she cannot breathe, or if the student is observed to be in severe distress, such as having difficulty breathing, or sustained or prolonged crying or coughing.

**Safety Requirements.** The following are additional requirements for the use of physical restraint:

- (a) No restraint will be administered in such a way that the student is prevented from breathing or speaking. During the administration of a restraint, a program staff member will continuously monitor the physical status of the student, including skin temperature and color, and respiration.
- (b) Restraint will be administered in such a way so as to prevent or minimize physical harm. If, at any time during a physical restraint, the student expresses or demonstrates significant physical distress including, but not limited to, difficulty breathing, the student will be released from the restraint immediately, and school staff will take steps to seek medical assistance.
- (c) If a student is restrained for a period longer than 20 minutes, program staff will obtain the approval of the principal. The approval will be based upon the student's continued agitation during the restraint justifying the need for continued restraint.
- (d) Program staff will review and consider any known medical or psychological limitations, known or suspected trauma history, and/or behavioral intervention plans regarding the use of physical restraint on an individual student.
- (e) After the release of a student from a restraint, the Collaborative will review the incident with the student to address the behavior that precipitated the restraint, review the incident with the staff person(s) who administered the restraint to discuss whether proper restraint procedures were followed, and consider whether any follow-up is appropriate for students who witnessed the incident.

**Complaints.** Complaints by parents or any Collaborative community member regarding the use of physical restraints may be made verbally or in writing to the applicable principal and/or the

Collaborative's Executive Director. All such complaints will be thoroughly investigated in a manner deemed appropriate by the Executive Director. Upon completion of such investigation, a determination will be made regarding whether this policy or the relevant restraint laws and regulations have been violated and the Collaborative will take appropriate action.

## VI. PHYSICAL RESTRAINT TRAINING

**Required Training for all Program Staff.** The Collaborative will provide restraint training to all program staff. Each principal shall determine a time and method to provide all program staff with training regarding this policy and requirements when restraint is used. Such training shall occur within the first month of each school year and, for employees hired after the school year begins, within a month of their employment. Training shall include information on the following:

- (a) The role of the student, family, and staff in preventing restraint;
- (b) The Collaborative's restraint prevention and behavior support policy and procedures, including use of time-out as a behavior support strategy distinct from seclusion;
- (c) Interventions that may preclude the need for restraint, including de-escalation of problematic behaviors and other alternatives to restraint in emergency circumstances;
- (d) When behavior presents an emergency that requires physical restraint, the types of permitted physical restraints and related safety considerations, including information regarding the increased risk of injury to a student when any restraint is used, in particular a restraint of extended duration;
- (e) Administering physical restraint in accordance with medical or psychological limitations, known or suspected trauma history, and/or behavioral intervention plans applicable to an individual student; and
- (f) Identification of program staff who have received in-depth training pursuant to 603 CMR 46.03(3) in the use of physical restraint.

**In-Depth Staff Training in the Use of Physical Restraint.** At the beginning of each school year, the Executive Director will identify program staff who are authorized to serve as a Collaborative-wide resource to assist in ensuring proper administration of physical restraint. Such staff shall participate in in-depth training in the use of physical restraint. Such in-depth training will be competency-based and be at least-sixteen (16) hours in length with at least one refresher training occurring annually thereafter.

In-depth training in the proper administration of physical restraint shall include, but not be limited to:

- (a) Appropriate procedures for preventing the use of physical restraint, including the de-escalation of problematic behavior, relationship building and the use of alternatives to restraint;
- (b) A description and identification of specific dangerous behaviors on the part of students that may lead to the use of physical restraint and methods for evaluating the risk of harm in individual situations in order to determine whether the use of restraint is warranted;
- (c) The simulated experience of administering and receiving physical restraint, instruction regarding the effect(s) on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;
- (d) Instruction regarding documentation and reporting requirements and investigation of injuries and complaints;
- (e) Demonstration by participants of proficiency in administering physical restraint; and,

- (f) Instruction regarding the impact of physical restraint on the student and family, recognizing the act of restraint has impact, including but not limited to psychological, physiological, and social-emotional effects.

## VII. PHYSICAL RESTRAINT REPORTING REQUIREMENTS

The use of physical restraints must be reported as follows:

**Informing the principal.** In each instance where a physical restraint is administered, the staff member who administered the restraint shall verbally inform his or her principal of the restraint as soon as possible, and by written report no later than the next school working day. The written report shall be provided to the principal for review of the use of the restraint. If the principal has administered the restraint, the principal shall prepare the report and submit it to the Executive Director for review. The Collaborative shall maintain an on-going record of all reported instances of physical restraint, which shall be made available for review by the applicable parent or the DESE upon request.

**Informing Parents.** The principal, the Executive Director, or his/her designee shall make reasonable efforts to verbally inform a student's parent of that student's physical restraint within twenty-four (24) hours of the event, and shall notify the parent by written report sent either within three school working days of the restraint to an email address provided by the parent for communications about the student, or by regular mail postmarked no later than three school working days after the restraint. If the Collaborative customarily provides a parent of a student with school-related information in a language other than English, the written restraint report shall be provided to the parent in that language. Parents are afforded the opportunity to comment orally and in writing on the use of the restraint and on information in the written report.

**Contents of Report.** The written reports described above will include information below. Restraint report forms are attached at end of this policy.

- (a) The name of the student; the names and job titles of the staff who administered the restraint, and observers, if any; the date of the restraint; the time the restraint began and ended; and the name of the principal or designee who was verbally informed following the restraint; and, as applicable, the name of the principal or designee who approved continuation of the restraint beyond 20 minutes.
- (b) A description of the activity in which the restrained student and other students and staff in the same room or vicinity were engaged immediately preceding the use of physical restraint; the behavior that prompted the restraint; the efforts made to prevent escalation of behavior, including the specific de-escalation strategies used; alternatives to restraint that were attempted; and the justification for initiating physical restraint.
- (c) A description of the administration of the restraint including the holds used and reasons such holds were necessary; the student's behavior and reactions during the restraint; how the restraint ended; and documentation of injury to the student and/or staff, if any, during the restraint and any medical care provided.
- (d) Information regarding any further action(s) that the school has taken or may take, including any consequences that may be imposed on the student.
- (e) Information regarding opportunities for the student's parents to discuss with school officials the administration of the restraint, any consequences that may be imposed on the student, and any other related matter.

**Weekly Individual Student Review.** Collaborative principals shall conduct a weekly review of restraint data to identify students who have been restrained multiple times during the week. If such students are identified, the principal shall convene one or more review teams as the principal deems appropriate to assess the student's progress and needs. The assessment shall include at least the following:

- (a) review and discussion of the written restraint reports submitted and any comments provided by the student and parent about such reports and the use of the restraints;
- (b) analysis of the circumstances leading up to each restraint, including factors such as time of day, day of the week, antecedent events, and individuals involved;
- (c) consideration of factors that may have contributed to escalation of behaviors, consideration of alternatives to restraint, including de-escalation techniques and possible interventions, and such other strategies and decisions as appropriate, with the goal of reducing or eliminating the use of restraint in the future;
- (d) agreement on a written plan of action by the Collaborative.

If the principal directly participated in the restraint, a duly qualified individual designated by the Executive Director shall lead the review team's discussion. The Collaborative shall ensure that a record of each individual student review is maintained and made available for review by the DESE or the parent, upon request.

**Monthly Administrative Review.** Collaborative principals shall conduct a monthly review of school-wide restraint data. This review shall consider patterns of use of restraints by similarities in the time of day, day of the week, or individuals involved; the number and duration of physical restraints school-wide and for individual students; the duration of restraints; and the number and type of injuries, if any, resulting from the use of restraint. The principal shall determine whether it is necessary or appropriate to modify the school's restraint prevention and management policy, conduct additional program staff training on restraint reduction/prevention strategies, such as training on positive behavioral interventions and supports, or take such other action as necessary or appropriate to reduce or eliminate restraints.

**Report of all Restraint-Related Injuries to The DESE.** When a physical restraint has resulted in an injury to a student or staff member, the Collaborative shall send a copy of the written report required above to the DESE no later than three school working days of the administration of the restraint. The Collaborative shall also send the DESE a copy of the record of physical restraints maintained by the principal for the 30-day period prior to the date of the reported restraint.

**Annual Report of all Physical Restraints to the DESE.** The Collaborative will collect and annually report to the DESE data regarding the use of physical restraints in a manner and form directed by the DESE.

### **Time-out Guidelines and Student Separation**

When used appropriately, time-outs are a very powerful method for managing behavior. The purpose is to temporarily isolate a child, giving him/her time to calm down, and, if developmentally appropriate, time to reflect on his/her behavior. Time-out means time-out from reinforcement, rewards, and attention.

There are several types of time-out, and each classroom establishes their own guidelines. If at all possible, time-outs are utilized in order of least to most restrictive as follows:

1. Observational time-out is an effective means of having students remain in the classroom close to the group and watch what they are missing.
2. In-class exclusion time-outs take place in a quiet part of the room where the student does not see others.
3. Out-of class exclusion time-outs take place in an area immediately outside of the classroom.

For students in need of minimal stimulation and a safe area an out-of class exclusion time-out takes place in the time-out area. This area is free from distractions and objects to keep the student safe. If the time-out area has a door, the door has a window so the staff can remain visible to the student at all times. Staff members fill out the Time-Out Log documenting the reason for time-out and the length of the time-out. A staff member will accompany students in the time-out space. When a time-out of any type is over, the student must immediately be positively redirected back into an acceptable activity. This may be the same activity or something else. If possible, the antecedents of the behavior that caused the time-out will be moved.

All Collaborative staff working directly with students have the authority and training to implement student separation from their group or activity. However, any intervention that results in a student being involuntarily separated from their group or activity for more than thirty minutes must be approved by the principal and documented.

Students who are involuntarily separated from their group or activity will be observed at all times and must have at least one staff member accessible to them at all times. Any room or space used for time-out or separation will be safe and appropriate and will never be locked.

Collaborative students are always allowed to separate themselves voluntarily from their group or activity provided their separation does not result in safety concerns. In fact, students are encouraged to request a break when appropriate to assist in problem solving or seeking support. These breaks are not viewed as punitive, take place in an identified area of the classroom and are supervised directly by a licensed professional or a paraprofessional under the direction of a licensed professional.

### **Anti-Hazing**

*Commonwealth of Massachusetts: Anti-Hazing Law Chapter 269: Section 17. Hazing; organizing or participating; hazing defined*

Whoever is a principal organizer or participant in the crime of hazing, as defined herein, shall be punished by a fine of not more than three thousand dollars or by imprisonment in a house of correction for not more than one year, or both such fine and imprisonment.

The term “hazing” as used in this section and in sections eighteen and nineteen, shall mean any conduct or method of initiation into any student organization, whether on public or private property, which willfully or recklessly endangers the physical or mental health of any student or other person. Such conduct shall include whipping, beating, branding, forced calisthenics, exposure to the weather,

forced consumption of any food, liquor, beverage, drug or other substance, or any other brutal treatment or forced physical activity which is likely to adversely affect the physical health or safety of any such student or other person, or which subjects such student or other person to extreme mental stress, including extended deprivation of sleep or rest or extended isolation. Notwithstanding any other provisions of this section to the contrary, consent shall not be available as a defense to any prosecution under this action.

*Chapter 269: Section 18. Failure to report hazing*

Whoever knows that another person is the victim of hazing as defined in section seventeen and is at the scene of such crime shall, to the extent that such person can do so without danger or peril to himself or others, report such crime to an appropriate law enforcement official as soon as reasonably practicable. A fine of not more than one thousand dollars shall punish whoever fails to report a crime.

Section 19 of the Massachusetts General Laws, chapter 19 requires this anti-hazing law be distributed to all students and to all members of student groups, student Teams, and student organizations. Those who participate in and/or organize hazing shall be disciplined.

*Chapter 269: Section 19.; issuance to students and student groups, Teams and organizations; report*

Each institution of secondary education and each public and private institution of post-secondary education shall issue to every student group, student Team or student organization which is part of such institution or is recognized by the institution or permitted by the institution to use its name or facilities or is known by the institution to exist as an unaffiliated student group, student Team or student organization, a copy of this section and sections seventeen and eighteen; provided, however, that an institution's compliance with this section's requirements that an institution issue copies of this section and sections seventeen and eighteen to unaffiliated student groups, Teams or organizations shall not constitute evidence of the institution's recognition or endorsement of said unaffiliated student groups, Teams or organizations.

Each such group, Team or organization shall distribute a copy of this section and sections seventeen and eighteen to each of its members, plebes, pledges or applicants for membership. It shall be the duty of each such group, Team or organization, acting through its designated officer, to deliver annually, to the institution an attested acknowledgement stating that such group, Team or organization has received a copy of this section and said sections seventeen and eighteen, that each of its members, plebes, pledges, or applicants has received a copy of sections seventeen and eighteen, and that such group, Team or organization understands and agrees to comply with the provisions of this section and sections seventeen and eighteen.

Each institution of secondary education and each public or private institution of post-secondary education shall, at least annually, before or at the start of enrollment, deliver to each person who enrolls as a full time student in such institution a copy of this section and sections seventeen and eighteen.

Each institution of secondary education and each public or private institution of post-secondary education shall file, at least annually, a report with the board of higher education and in the case of secondary institutions, the board of education, certifying that such institution has complied with its

responsibility to inform student groups, Teams or organizations and to notify each full time student enrolled by it of the provisions of this section and sections seventeen and eighteen and also certifying that said institution has adopted a disciplinary policy with regard to the organizers and participants of hazing, and that such policy has been set forth with appropriate emphasis in the student handbook or similar means of communicating the institution's policies to its students. The board of higher education and, in the case of secondary institutions, the board of education shall promulgate regulations governing the content and frequency of such reports, and shall forthwith report to the attorney general any such institution that fails to make such report.

## **BULLYING PREVENTION AND INTERVENTION PLAN**

### **Priority Statement**

Valley Collaborative's Bullying Prevention and Intervention Plan is a comprehensive approach to addressing bullying and cyber bullying, and each program in the Collaborative is committed to working with students, staff, families, law enforcement agencies, and the community to prevent issues of violence. The following is a Plan for preventing, intervening, and responding to incidents of bullying, cyber bullying, and retaliation. Each Collaborative program is responsible for the implementation and oversight of the Plan.

We recognize that certain students may be more vulnerable to become targets of bullying, harassment, or teasing based on actual or perceived characteristics, including race, color, religion, ancestry, national origin, sex, socioeconomic status, homelessness, academic status, gender identity or expression, physical appearance, or sensory disability, or by association with a person who has or is perceived to have one or more of these characteristics. The Collaborative will identify specific steps it will take to create a safe, supportive environment for vulnerable populations in the school community, and provide all students with the skills, knowledge, and strategies to prevent or respond to bullying, harassment, or teasing.

### **I. Prohibition Against Bullying and Retaliation**

The Collaborative will not tolerate any unlawful or disruptive behavior, including any form of bullying, cyber bullying, or retaliation, in its school buildings, on school grounds, on school buses and at school bus stops or in school-related activities. The Collaborative will investigate promptly all reports and complaints of bullying, cyber bullying, and retaliation, and take prompt action to end that behavior and restore the target's sense of safety. The Collaborative will support this commitment in all aspects of the school community, including curricula, instructional programs, staff development, extracurricular activities, and parent involvement. Acts of bullying, which include cyber bullying, are prohibited:

- on school grounds and property immediately adjacent to school grounds, at a school-sponsored or school-related activity, function, or program whether on or off school grounds, at a school bus stop, on a school bus or other vehicle owned, leased, or used by a school district; or through the use of technology or an electronic device owned, leased, or used by a school district, and
- at a location, activity, function, or program that is not school-related through the use of technology or an electronic device that is not owned, leased, or used by a school district, if the acts create a hostile environment at school for the target or witnesses, infringe on their rights at school, or materially and substantially disrupt the education

process or the orderly operation of a school.

Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying is also prohibited. As stated in M.G.L. c. 71, § 37O, nothing in this Plan requires the district or school to staff any non-school related activities, functions, or programs.

## **II. Definitions**

Several of the following definitions are copied directly from M.G.L. c. 71, § 37O, as noted below.

A **Perpetrator** is defined as a student or member of a school staff including but not limited to, an educator, administrator, school nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extra-curricular activity or paraprofessional who engages in bullying behavior.

**Bullying**, as defined in M.G.L. c. 71, § 37O, is the repeated use by one or more students, or by a member of school staff including, but not limited to an educator, administrator, school nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity or para professional of a written, verbal, or electronic expression or a physical act or gesture or any combination thereof, directed at a target that:

- causes physical or emotional harm to the target or damage to the target's property;
- places the target in reasonable fear of harm to himself or herself or of damage to his or her property;
- creates a hostile environment at school for the target;
- infringes on the rights of the target at school; or
- materially and substantially disrupts the education process or the orderly operation of a school.

**Cyber bullying** is bullying through the use of technology or electronic devices such as telephones, cell phones, computers, and the Internet. It includes, but is not limited to, email, instant messages, text messages, and Internet postings. See M.G.L. c. 71, § 37O for the legal definition of cyber bullying.

**Hostile environment**, as defined in M.G.L. c. 71, § 37O, is a situation in which bullying causes the school environment to be permeated with intimidation, ridicule, or insult that is sufficiently severe or pervasive to alter the conditions of a student's education.

**Retaliation** is any form of intimidation, reprisal, or harassment directed against a student who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying.

**Staff** includes, but is not limited to Collaborative educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to extracurricular activities, support staff, or paraprofessionals.

**Target** is a student against whom bullying, cyber bullying, or retaliation has been perpetrated.

## **III. Training and Professional Development**

The Collaborative will provide ongoing professional development that will build the skills of all

staff members to prevent, identify, and respond to bullying.

**A. Annual staff training on the Plan**

Annual training for all school staff on the Collaborative Bullying Prevention and Intervention Plan will include staff responsibilities under the Plan, an overview of the steps that the principal or his/her designee will follow upon receipt of a report of bullying or retaliation, and an overview of the bullying prevention curricula to be offered at all grades throughout the school building. Staff members hired after the start of the school year are required to participate in school based training during the school year in which they are hired, unless they can demonstrate participation in an acceptable and comparable program within the last two years.

**B. Ongoing professional development**

The goal of professional development is to establish a common understanding of tools necessary for staff to create a school climate that promotes safety, civil communication, and respect for differences. Professional development will build the skills of staff members to prevent, identify, and respond to bullying. As required by M.G.L. c. 71, § 37O, the content of school-wide and professional development will be informed by research and will include information on:

- developmentally (or age-) appropriate strategies to prevent bullying;
- developmentally (or age-) appropriate strategies for immediate, effective interventions to stop bullying incidents;
- information regarding the complex interaction and power differential that can take place between and among an aggressor, target, and witnesses to the bullying;
- research findings on bullying, including information about specific categories of students who have been shown to be particularly at risk for bullying in the school environment;
- information on the incidence and nature of cyber bullying; and
- Internet safety issues as they relate to cyber bullying.

All students attending the Collaborative have an IEP. Therefore, professional development will emphasize ways to prevent and respond to bullying or retaliation for students with disabilities that must be considered when developing students' IEP; this will include a particular focus on the needs of students with autism or students whose disability affects social skills development.

Additional areas identified by the programs for professional development includes:

- Promoting and modeling the use of respectful language;
- Fostering an understanding of and respect for diversity and difference;
- Building relationships and communicating with families;
- Constructively managing classroom behaviors;
- Using positive behavioral intervention strategies;
- Applying constructive disciplinary practices;
- Teaching students skills including positive communication, anger management, and empathy for others;
- Engaging students in school or classroom planning and decision-making; and
- Maintaining a safe and caring classroom for all students.

**C. Written notice to staff**

Each school will provide all staff with an annual written notice of the Collaborative Bullying Prevention and Intervention Plan by publishing information about it, including sections related to staff responsibilities in the Personnel Policy and Employee Handbook.

**IV. Access to Resources and Services**

A key aspect of promoting positive school climates is ensuring that the underlying emotional needs of all students are addressed. These students include targets, aggressors or bystanders of bullying or cyber bullying. Schools will also address the emotional needs of these students' families. The Collaborative Bullying Prevention and Intervention Plan include strategies for providing supports and services necessary to meet these needs. In order to enhance the Collaborative's capacity to prevent, intervene early, and respond effectively to bullying, available services reflect an understanding of the dynamics of bullying and provide approaches to address the needs of targets, aggressors and bystanders. The Collaborative programs provide counseling or referral to appropriate services for students who are aggressors, targets, and family members of those students.

**A. Identifying resources**

Counselors, together with building administrators, will work to identify the school's capacity to provide counseling, case management and other services for these students (targets, aggressors, bystanders) and their families. Schools will conduct an annual review of staffing and programs that support the creation of positive school environments, focusing on early interventions and intensive services, and develop recommendations and action steps to fill resource and service gaps. The Collaborative works in collaboration with local and state agencies to adopt evidenced based curricula and to provide additional preventative services to students, parents, and faculty and staff.

**B. Counseling and other services**

The Collaborative administrators, counselors, nurses, and special educators provide a variety of skill-based services to students within the educational setting that include on-going emotional support, risk assessment, crisis intervention, and help with community based counseling referrals when appropriate. The student's Team meets with parents and staff as needed to help address student's academic, emotional and behavioral concerns as collaboratively as possible. School counselors work with administrators to provide linguistically appropriate resources to identified families. School counselors maintain up-to-date information on community based mental health referrals as well as Community Service Agencies (CSAs) within the local vicinity, providing services to Medicaid eligible students. School counselors, Board Certified Behavior Analysts (BCBA), and special needs educators work collaboratively to develop behavior plans and social thinking groups for students with social skill weaknesses. In addition, school counselors, school psychologists and special education professionals will work together to educate and support parents, conduct parent workshops and apprise parents of outside resources to enhance parenting skills and provide for the needs of children.

Below is a list highlighting activities offered at various programs:

- One-on-one and small group counseling
- Crisis intervention
- Facilitating classroom meetings to resolve problems
- School curriculum on issues of respect, sexual harassment and student success skills

- Peer Mediation
- Lunch/friendship groups
- Parent-teacher conferences
- Parent workshops
- Transition planning
- Parent guidance
- Behavior plan development
- Classroom observations
- Teacher consultation
- Promoting and modeling the use of respectful language
- Fostering an understanding of and respect for diversity and difference
- Building relationships and communicating with families
- Managing classroom behaviors constructively
- Using positive behavioral intervention strategies
- Applying constructive disciplinary practices
- Teaching students skills including positive communication, anger management, and empathy for others
- Engaging students in school or classroom planning and decision-making
- Maintaining a safe and caring classroom for all students

### **C. Students with disabilities**

As required by M.G.L. c. 71B, § 3, when the IEP Team determines the student has a disability that affects social skills development or the student may participate in or is vulnerable to bullying, harassment, or teasing because of his/her disability, the Team will consider what should be included in the IEP to develop the student's skills and proficiencies to avoid and respond to bullying, harassment, or teasing.

### **D. Referral to outside services**

The Collaborative will evaluate its current protocol for referring students and families to outside services to ensure relevance to the Collaborative Bullying Prevention and Intervention Plan, and revise as needed. School counselors and other specialists will use this protocol to help students and families access appropriate and timely services. Referrals must comply with relevant laws and policies.

### **E. Assessing needs and resources**

At least every four years beginning with the 2015-2016 school year, the Collaborative will administer a Department of Elementary and Secondary Education-developed survey to assess school climate and prevalence, nature, and severity of bullying in its programs. Additionally, the Collaborative will annually report bullying incident data to the Department.

### **V. Academic and Non-Academic Activities**

The Collaborative will provide age-appropriate instruction on bullying prevention in each grade that is incorporated into the Collaborative programs' evidence-based curricula. Effective instruction includes classroom approaches, whole-program initiatives, and focused strategies for bullying prevention and social skills development.

**A. Specific bullying prevention approaches**

Bullying prevention curricula is informed by current research, which among other things, emphasizes the following approaches:

- using scripts and role plays to develop skills;
- empowering students to take action by knowing what to do when they witness other students engaged in acts of bullying or retaliation, including seeking adult assistance;
- helping students understand the dynamics of bullying and cyber bullying, including the underlying power imbalance;
- emphasizing cyber safety, including safe and appropriate use of electronic communication technologies;
- enhancing students' skills for engaging in healthy relationships and respectful communications;
- engaging students in a safe, supportive school environment that is respectful of diversity and difference; and
- providing parents with information regarding the school's bullying prevention curricula

**B. General teaching approaches that support bullying prevention efforts**

The following approaches are integral to establishing a safe and supportive school environment, and they underscore the importance of the Collaborative's bullying intervention and prevention initiatives:

- setting clear expectations for students and establishing school and classroom routines;
- creating safe school and classroom environments for all students, including students with disabilities, lesbian, gay, bisexual, transgender students, and homeless students;
- communicating with parents regarding the schools' goals and expectations for students and students' safety
- using appropriate and positive responses and reinforcement, even when students require discipline;
- using positive behavioral supports;
- encouraging adults to develop positive relationships with students;
- modeling, teaching, and rewarding pro-social, healthy, and respectful behaviors;
- using positive approaches to behavioral health, including collaborative problem-solving, conflict resolution training, teamwork, and positive behavioral supports that aid in social and emotional development;
- using the Internet safely; and
- supporting students' interest and participation in non-academic and extracurricular activities, particularly in their areas of strength.

**VI. Policies and Procedures for Reporting and Responding to Bullying and Retaliation**

To support efforts to respond promptly and effectively to bullying and retaliation, the Collaborative programs have policies and procedures in place for receiving and responding to reports of bullying or retaliation. These policies and procedures ensure that members of the school community – students, parents, and staff – know what will happen when incidents of bullying occur.

In school systems, harassment may take many forms and cross many lines. The situation may be an instance of staff member to staff member, staff member to student, student to staff member, or student to student.

### **A. Reporting**

Reports of bullying or retaliation may be made by staff, students, parents, or others, and may be oral or written. Oral reports made by or to a staff member must be recorded in writing. All employees are required to report immediately to the principal or his/her designee any instance of bullying or retaliation the staff member becomes aware of or witnesses. Reports made by students, parents, or other non-employees may be made anonymously, however, no disciplinary action can be taken against the perpetrator solely on the basis of an anonymous report. The schools will make reporting resources available to the school community including, but not limited to, the Collaborative Bullying Prevention and Intervention Incident Reporting Form.

Use of the Collaborative Bullying Prevention and Intervention Incident Reporting Form Report is not required as a condition of making a report. Programs will:

1. Include a copy of the Bullying Report Form in the beginning of the year packets for students and parents (See Appendix B);
2. Make it available in each Collaborative program's main office, the counseling office, and other locations determined by the principal or his/her designee;
3. At the beginning of each school year, the Collaborative will provide the school community, including administrators, staff, students, and parents, with written notice of its policies for reporting acts of bullying and retaliation. A description of the reporting procedures and resources, including the name and contact information of the principal or his/her designee, will be incorporated in student and staff handbooks.

**Reporting by Staff:** A staff member will report immediately to the principal or his/her designee when he/she witnesses or becomes aware of conduct that may be bullying or retaliation. The requirement to report to the principal or his/her designee does not limit the authority of the staff member to respond to behavioral or disciplinary incidents consistent with each school's policies and procedures for behavior support and discipline.

**Reporting by Students, Parents, and Others:** The school system expects students, parents, and others who witness or become aware of an instance of bullying or retaliation involving a student to report it to the principal or his/her designee. Reports may be made anonymously, but no disciplinary action will be taken against an alleged aggressor solely on the basis of an anonymous report. Students, parents, and others may request assistance from a staff member to complete a written report. Students will be provided practical, safe, private and age-appropriate ways to report and discuss an incident of bullying with a staff member, or with the principal or his/her designee.

### **B. Responding**

Before fully investigating the allegations of bullying or retaliation, the principal or his/her designee will take steps to assess the need to restore a sense of safety to the alleged target and/or to protect the alleged target from possible further incidents. There may be circumstances in which the principal or his/her designee contacts parents prior to any investigation. Notice will be consistent with state regulations at 603 CMR 49.00. Responses to promote safety may include, but not be limited to, creating a personal safety plan; predetermining seating arrangements for the target

and/or the aggressor in the classroom, at lunch, or on the bus; identifying a staff member who will act as a “safe person” for the target; and altering the aggressor’s schedule and access to the target. The principal or his/her designee will take additional steps to promote safety during the course of and after the investigation, as necessary.

The principal or his/her designee will implement appropriate strategies for protecting from bullying or retaliation a student who has reported bullying or retaliation, a student who has witnessed bullying or retaliation, a student who provides information during an investigation, or a student who has reliable information about a reported act of bullying or retaliation. The confidentiality of students and witnesses reporting alleged acts of bullying will be maintained to the extent possible given the school’s obligation to investigate the matter.

### **1. Obligations to Notify Others**

**Notice to parents or guardians:** Upon determining that bullying or retaliation has occurred, the principal or his/her designee will promptly notify the parents of the target and the aggressor of this, and of the procedures for responding to it. Notice will be provided in the primary language of the homeland in compliance with confidentiality requirements of the Massachusetts Student Records Regulations, 603 CMR 23.00, and the Federal Family Educational Rights and Privacy Act Regulations, 34 CFR Part 99, as set forth in 603 CMR 49.07.

The principal or designee shall inform the parent or guardian of the target about the Department of Elementary and Secondary Education’s problem resolution system and the process for accessing that system, regardless of the outcome of the bullying determination. Any parent wishing to file a claim/concern or seeking assistance outside of the Collaborative may do so with the Department of Elementary and Secondary Education Program Resolution System (PRS). That information can be found at: <http://www.doe.mass.edu/pqa>, emails can be sent to [compliance@doe.mass.edu](mailto:compliance@doe.mass.edu) or individuals can call 781-338-3700.

**Notice to another school district:** If the reported incident involves students from more than one school district, charter school, nonpublic school, approved private special education day or residential school, or Collaborative school, the principal or his/her designee first informed of the incident will promptly notify by telephone the principal or his/her designee of the other school(s) of the incident so that each school may take appropriate action. All communications will be in accordance with state and federal privacy laws and regulations, and 603 CMR.

**Notice to law enforcement:** At any point after receiving a report of bullying or retaliation, including after an investigation, if the principal or his/her designee has a reasonable basis to believe that criminal charges may be pursued against the aggressor, the principal or his/her designee will notify the local law enforcement agency. Notice will be consistent with the requirements of 603 CMR 49.06 and locally established agreements with the local law enforcement agency. Also, if an incident occurs on school grounds and involves a former student under the age of 21 who is no longer enrolled in school, the principal or his/her designee shall contact the local law enforcement agency if he or she has a reasonable basis to believe that criminal charges may be pursued against the aggressor. In making this determination, the principal will, consistent with the Plan and this policy, consult with local law enforcement and other individuals the principal or his/her designee deems appropriate.

## **2. Investigation**

The principal or his/her designee will investigate promptly (within 24 hours) all reports of bullying or retaliation and, in doing so, will consider all available information known, including the nature of the allegation(s) and the ages of the students involved. During the investigation the principal or his/her designee will, among other things, interview students, staff, witnesses, parents, and others as necessary. The principal or his/her designee (or whoever is conducting the investigation) will remind the alleged aggressor, target, and witnesses that retaliation is strictly prohibited and will result in disciplinary action. Interviews will be conducted by the principal or his/her designee, other staff members as determined by the principal or his/her designee, and in consultation with the school counselor, as appropriate. To the extent practicable, and given his/her obligation to investigate and address the matter, the principal or his/her designee will maintain confidentiality during the investigative process. The principal or his/her designee will maintain a written record of the investigation.

Procedures for investigating reports of bullying and retaliation will be consistent with Collaborative policies and procedures for investigations and for possible disciplinary action. If necessary, the principal or his/her designee will consult with the Executive Director regarding consultation with legal counsel pertaining to the investigation of the alleged report.

## **3. Determinations**

The principal or his/her designee will make a determination based upon all of the facts and circumstances. If, after investigation, bullying or retaliation is substantiated, the principal/Director or his/her designee will take reasonable steps to prevent recurrence and to ensure that the target is not restricted in participating in school or in benefiting from school activities. The principal or his/her designee will determine what remedial action is required, if any, and what responsive actions and/or disciplinary action is necessary.

Depending upon the circumstances, the principal or his/her designee may choose to consult with the students' teacher(s) and/or school counselor, and the target's or aggressor's parents, to identify any underlying social or emotional issue(s) that may have contributed to the bullying behavior and to assess the level of need for additional social skills development.

The principal or his/her designee will promptly notify the parents of the target and the aggressor about the results of the investigation and, if bullying or retaliation is found, what action is being taken to prevent further acts of bullying or retaliation. All notice to parents must comply with applicable state and federal privacy laws and regulations. Because of the legal requirements regarding the confidentiality of student records, the principal/Director or his/her designee cannot report specific information to the target's parent about the disciplinary action taken unless it involves a "stay away" order or other directive that the target must be aware of in order to report violations.

## **4. Responses to Bullying**

The Collaborative has incorporated a range of individualized strategies and interventions that may be used in response to remediate a student's skills or to prevent further incidences of bullying and/or retaliation.

**a. Teaching Appropriate Behavior through Skills-Building**

Upon the principal or his/her designee determining that bullying or retaliation has occurred, the law requires that the school or district use a range of responses that balance the need for accountability with the need to teach appropriate behavior. M.G.L. c. 71, § 37O (d) (v). Skill building approaches that the principal or his/her designee may consider include:

- Offering individualized skill-building sessions based on the school's/district's anti-bullying curricula;
- Providing relevant educational activities for individual students or groups of students, in consultation with school counselors and other appropriate school personnel;
- Implementing a range of academic and nonacademic positive behavioral supports to help students understand pro-social ways to achieve their goals;
- Meeting with parents to engage parental support and to reinforce the anti-bullying curricula and social skills building activities at home;
- Adopting behavioral plans to include a focus on developing specific social skills; and making a referral for evaluation.

**b. Taking Disciplinary Action**

If the principal or his/her designee decides that disciplinary action is appropriate, the disciplinary action will be determined on the basis of facts found by the principal or his/her designee, including the nature of the conduct, the age of the student(s) involved, and the need to balance accountability with the teaching of appropriate behavior. Discipline will be consistent with this Collaborative Bullying Prevention and Intervention Plan.

Discipline procedures for students with disabilities are governed by the federal Individuals with Disabilities Education Improvement Act (IDEA), which should be read in cooperation with state laws regarding student discipline. If the principal or his/her designee determines that a student knowingly made a false allegation of bullying or retaliation, that student may be subject to disciplinary action consistent with this Handbook.

**c. Promoting Safety for the Target and Others**

The principal or his/her designee(s) will consider what adjustments, if any, are needed in the school environment to enhance the target's sense of safety and that of others as well. Within a reasonable period of time following the determination and the ordering of remedial and/or disciplinary action, the principal or his/her designee will contact the target to determine whether there has been a recurrence of the prohibited conduct and whether additional supportive measures are needed. If so, the principal or his/her designee will work with appropriate school staff to implement them immediately.

**VII Collaboration with Families**

The Collaborative Bullying Prevention and Intervention Plan includes strategies to engage and collaborate with students' families in order to increase the capacity of each Collaborative program to prevent and respond to bullying. Resources for families and communication with them are essential aspects of effective collaboration. Provisions for informing parents about the bullying

prevention and intervention curricula used by the schools include:

- 1) How parents can reinforce the curricula at home and support the school or district plan;
- 2) The dynamics of bullying, online safety and cyber bullying.
- 3) Parents will also be notified in writing each year about the student-related sections of the Collaborative Bullying Prevention and Intervention Plan.

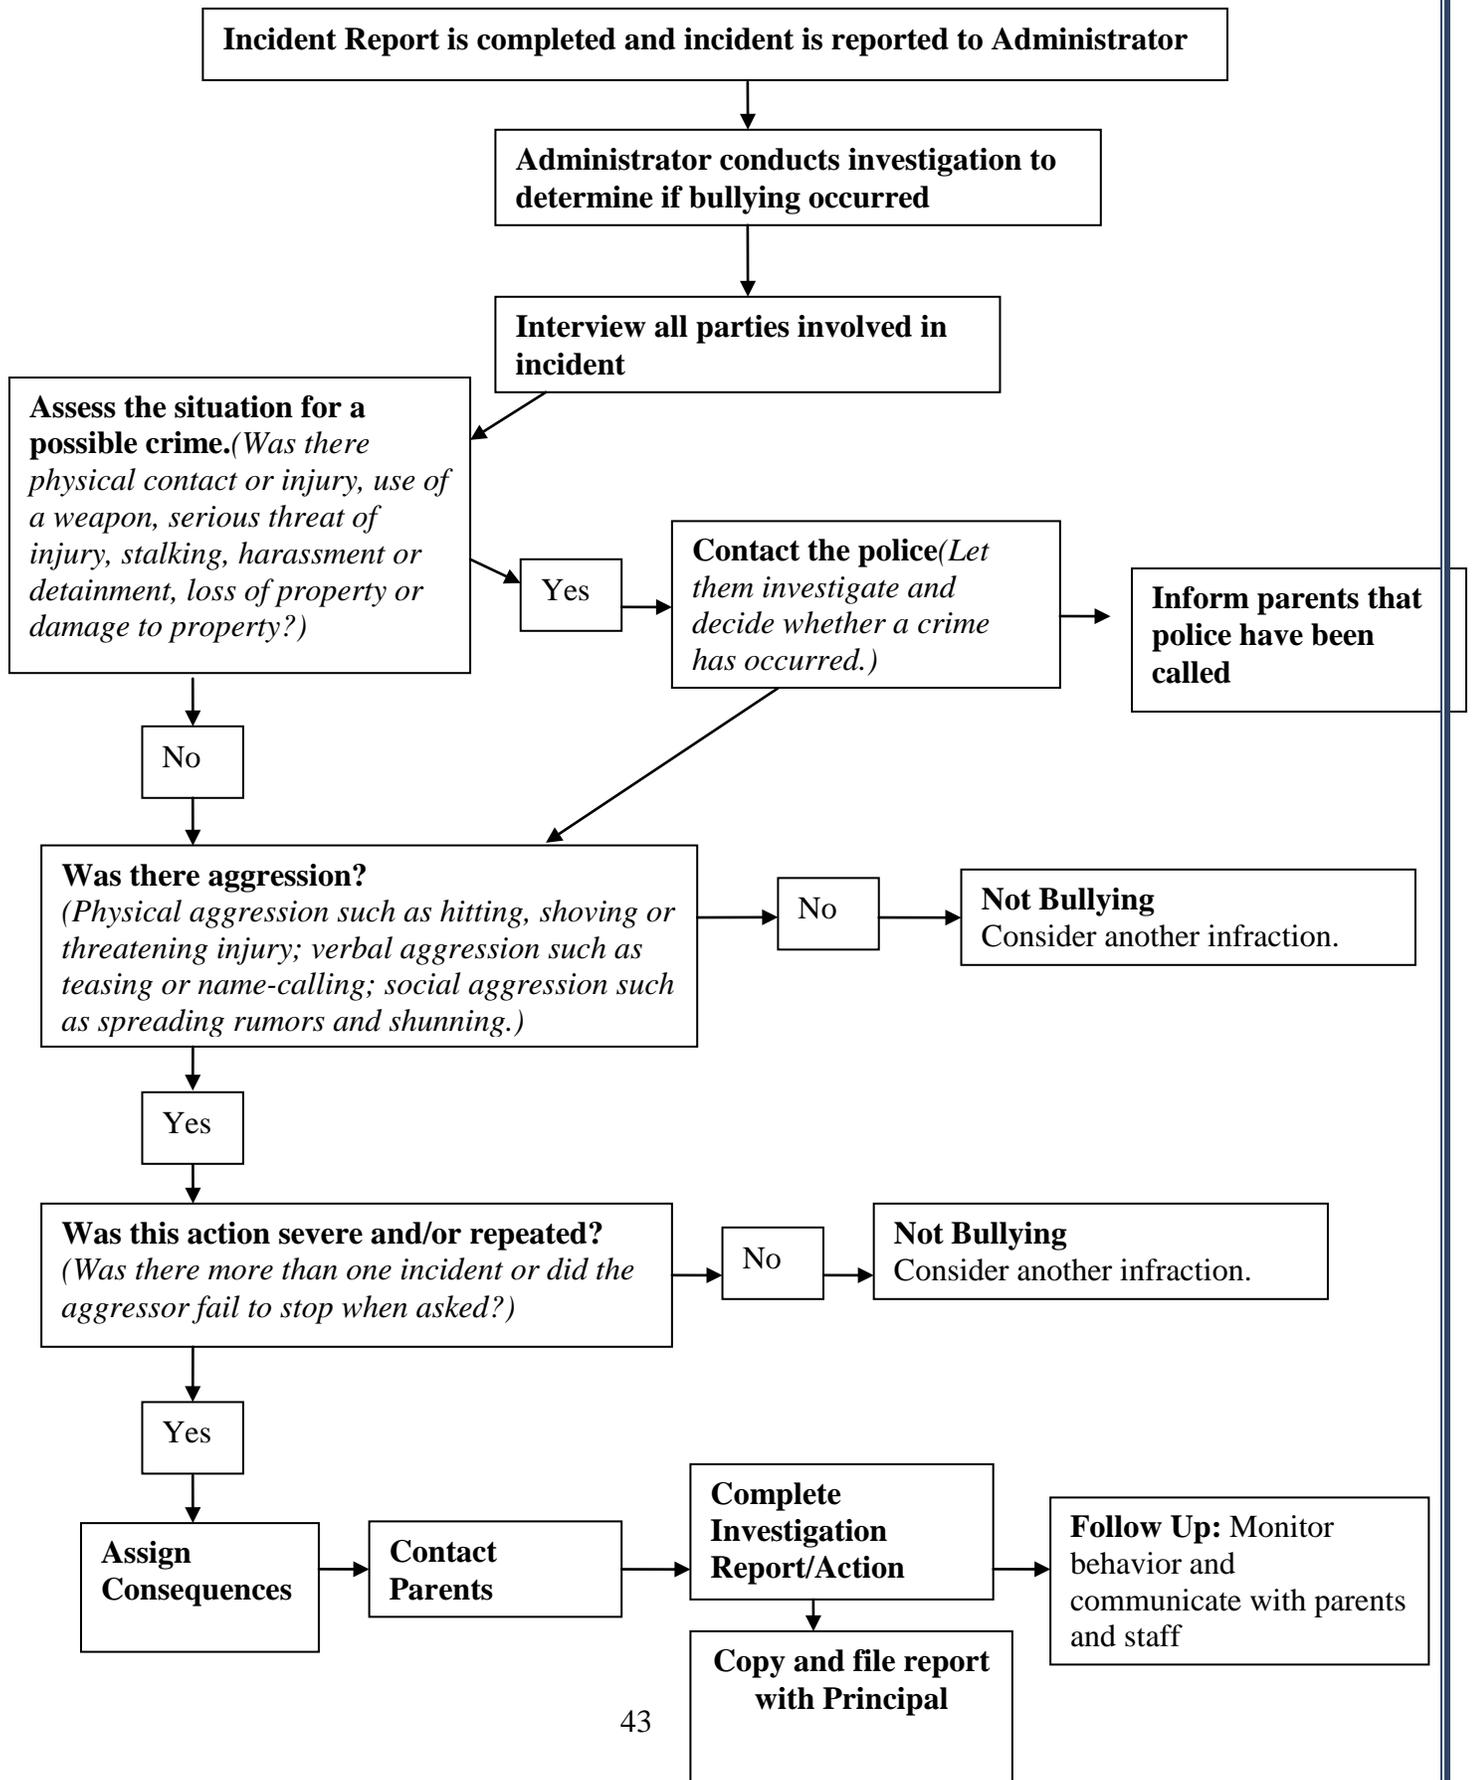

Programs will collaborate with the PAC and/or parent volunteers to create parent resource and information networks. Programs will join with these parent groups to offer education programs for parents that are focused on the parental components of the anti-bullying curricula and any social competency curricula used by the program(s).

Programs will annually inform parents of enrolled students about the anti-bullying curricula that are being used. This notice will include information about the dynamics of bullying, including cyber bullying and online safety. The schools will send parents written notice each year about the student related sections of the Collaborative Bullying Prevention and Intervention Plan and the Collaborative Internet Acceptable Use Policy. All notices and information made available to parents will be in hard copy and/or electronic formats.

#### **VIII. Relationship to Other Laws**

Consistent with state and federal laws, and the policies of the school or district, no person shall be discriminated against in admission to a public school of any town or in obtaining the advantages, privilege and courses of study of such public school on account of race, color, age, disability, gender, gender identity, religion, national origin, or sexual orientation. Nothing in the Collaborative Bullying Prevention and Intervention Plan prevents the Collaborative from taking action to remediate discrimination or harassment based on a person's membership in a legally protected category under local, state, or federal law, or school or district policies. In addition, nothing in the Collaborative Bullying Prevention and Intervention Plan is designed or intended to limit the authority of the school or district to take disciplinary action or other action under M.G.L. c. 71, §§ 37H or 37H½, other applicable laws, or local program or Collaborative policies in response to violent, harmful, or disruptive behavior, regardless of whether this Plan covers the behavior.

### COLLABORATIVE BULLYING RESPONSE FLOW CHART

## **COMPLAINTS AND GRIEVANCES**

Students and parents are encouraged to communicate any concerns or questions they may have about their education, care, or possible violations of student rights (including discrimination or violation of a student's civil rights). They are welcome to communicate their concerns through the use of communication books, telephone calls, site visits and meetings. They are free to express their concerns at any time to many different staff such as classroom teachers, principals, or the Executive Director. In the event that they do not feel their concerns are being addressed adequately, they are encouraged to initiate a formal grievance process as follows:

- Request, in writing, a conference with relevant principal to make their concerns known.
- Within one week following the conference, principal will follow-up with a response to the student or parent concerns in writing, including any reasons for the decision made. If the decision supports the student or parent concerns, the principal will promptly put the decision into effect.
- The principal will notify and keep the Executive Director informed of the complaint throughout the process. The Executive Director may be directly involved in the complaint resolution process at the request of the principal.
- In the event that of a disagreement with any part of the decision made by the principal, they may in writing appeal the decision to and request a meeting with the Executive Director. The Executive Director will follow-up with a response addressing the concerns in writing, including any reasons for the decision made. If the decision supports the concerns, the Executive Director will promptly put the decision into effect.
- If the grievant is still unsatisfied with the decision, they should contact the Director of Special Education of their sending district and express their concerns in writing.
- In the event of an unsatisfactory resolution, the Executive Director will contact the Director of Special Education of the LEA and inform him/her of the impasse with the student or parent. The Executive Director will work with the Director of Special Education to address the concerns satisfactorily and in the best interest of the student.
- Nothing in this policy is to prevent a parent from exercising his/her right under the Options for Dispute Resolution (Section 28.08) of Massachusetts Special Education regulations

## **MEDICAL POLICY**

The Collaborative maintains a nursing staff to promote the health and safety of its students, intervene with actual and potential health and behavioral issues, manage complex medical issues and provide case management services. A school nurse makes the decision if a student is to be sent home for medical reasons. All students must have a current physical and up-to-date immunization records and parent consents on file. Every school year, parents will be provided with a Student Health Packet containing relevant forms to be completed to ensure that the Collaborative has updated medical emergency contact information, medication information, and all other information relevant to the student's health, including parental authorizations for treatment and/or the administration of medication. The Collaborative maintains a separate Health Services Manual with more detailed medical policies. Copies of the Health Services Manual are kept in the Collaborative nurse's office and are available for parents upon request.

## **STUDENT POLICIES**

### **Student Records**

#### **The Family Educational Rights and Privacy Act**

The Family Educational Rights and Privacy Act and M.G.L. c. 71, § 34H provide rights relative to student educational records. This Student Record Policy includes the rights of parents/guardians (or students) to:

- 1) Inspect and review his/her child's educational records.
- 2) Make copies of these records.
- 3) Receive a list of the individuals having access to those records.
- 4) Ask for an explanation of any item in the records.
- 5) Ask for an amendment to any report on the grounds it is inaccurate, misleading, or violates the child's rights.
- 6) Request a hearing on the issue if the program refuses to make the amendment.

#### **Notification**

The Collaborative Student Record Policy is distributed to students and their parents through this Handbook. The Commonwealth of Massachusetts regulation (603 CMR 23.00) regarding student records is available for review at all Collaborative programs.

#### **Privacy and Security of Student Records**

In accordance with federal and state requirements, the Collaborative protects the confidentiality of any personally identifiable information that it collects, uses or maintains. The Collaborative maintains and provides access to student records in accordance with federal and state requirements.

The Collaborative has designated a trained keeper of the records, who is responsible for the privacy and security of all student records. The keeper of records ensures that student records are kept physically secure, that authorized school personnel are informed of the provision of federal and state law pertaining to student records and the Student Records Policies of the Collaborative, and are educated as to the importance of information privacy and confidentiality; and that any computerized systems are electronically secure.

#### **Application of Rights**

603 CMR 23.00 ensures parents' and students' rights of confidentiality, inspection, amendment, and destruction of student records. These rights, set forth in 603 CMR 23.00, apply to the student under the following circumstances:

1. Upon reaching 14 years of age or upon entering the ninth grade, whichever comes first. If a student is under the age of 14 and has not yet entered the ninth grade, these rights shall belong to the student's parent.
2. If a student is from 14 through 17 years of age or has entered the ninth grade, both the student and his/her parents, or either acting alone, shall exercise these rights.
3. If a student is 18 years of age or older, he/she shall exercise these rights, subject to the

following:

- The parent may continue to exercise the rights until expressly limited by such student.
  - The student may limit the rights which extend to his/her parent (except the right to inspect the student record) by making a request in writing to the principal or his/her designee or the Executive Director who will honor the request and retain a copy of it in the student record.
  - The parent of a student may inspect the student record regardless of the student's age.
4. The staff of the program and the parents may extend these rights to students under the age of 14 or to students who have not yet entered the ninth grade.

### **Student Record**

The student record will consist of and be defined by the following:

1. The transcript, which contains administrative records that constitute the minimum data necessary to reflect the student's educational progress and to operate the educational system. This data shall be limited to:
  - Student name, address, and phone number
  - Date of birth
  - Parent name, address, and phone number
  - Course titles
  - Grades (or equivalent when grades are not applicable)
  - Course credit
  - Grade level completed
  - Year completed
2. The temporary record, which consists of all the information in the student record which is not contained in the transcript and which is clearly of importance to the educational process. Such information may include: standardized test results, class rank (when applicable), extracurricular activities, IEPs, and evaluations of teachers, counselors, and other school staff.
3. The student record, which consists of both the transcript and the temporary record, including all information recorded and computer tapes, microfilm, microfiche, or any other materials and is to be labeled with the student's name, at a minimum.

### **Personal Files of Collaborative Employees**

Student records do not include notes, memory aids and other similar information that is maintained in the personal files of a program employee. This information is not accessible or revealed to authorized school personnel or any third party, but may be shared with the student, parent or a temporary substitute of the maker of the record. If the personal files of an employee are released to authorized school personnel, it will then become part of the student record.

## Collection of Data

Collection of student record data will be handled by the following procedures:

1. All information and data contained in or added to the student record shall only pertain to the educational needs of the student.
2. Information and data that is added to the temporary record will include:
  - Name, signature, and position of the person who is the source of the information.
  - The date of entry into the record.
3. Standardized group test results that are added to the temporary record only need to include:
  - Name of the test and/or publisher
  - Date of testing.

## Access to Student Records

1. Access of Authorized School Personnel - The following school personnel are authorized to access student records:
  - School administrators
  - Teachers
  - Counselors
  - Direct service personnel
  - Administrative office staff
  - Clerical personnel
  - Evaluation team which evaluates a student
2. Authorized school personnel are permitted access to the student records of the students to whom they are providing services in order to perform their official duties. The consent of the eligible student or the parent is not necessary.
3. The Log of Access – A log of access is to be kept as part of each student’s record. If parts of the student record are separately located, a separate log will be kept with each part. The log is to indicate all persons who have obtained access to the student record stating:
  - The name, position and signature of the person releasing the information
  - The name, position and, if a third party, the affiliation if any, of the person who is to receive the information
  - The date of access
  - The parts of the record to which the access was obtained
  - Purpose of access
4. Unless student record information is to be deleted or released, this log requirement shall not apply to:  
Authorized school personnel who inspect the student record
  - Administrative office staff and clerical personnel who add information to or need to obtain access to the student record
  - School nurses who inspect the student health record

5. Access of Eligible Students and Parents – The eligible student or parent shall have access to the student record. Access is to be granted within two (2) consecutive days of the initial request, unless the requesting party agrees to a delay. Upon the request for access, the entire student record regardless of location of its parts will be made available.
  - Upon request, copies of any information contained in the student record will be provided to the eligible student or the parent.
  - Any student, regardless of age, may request and will receive a copy of his/her transcript.
  - The eligible student or the parent may request to meet with qualified school personnel to have any of the contents of the student record interpreted.
  - The eligible student or the parent may grant a third party access to the student record with written authorization.
  
6. Access of Third Parties – No third party shall have access to information in or from a student record without the specific, informed written consent of the eligible student or the parent. When granting consent, the eligible student and parent must designate which parts of the student record shall be released to the third party. The eligible student or parent will retain a copy of the consent, and the original will be placed in the temporary record. Access to the student record is only to be granted to a third party if they consent not to share the information with any other third party without the written consent of the eligible student or parent. The following exceptions apply:
  - Upon receipt of a court order or lawfully issued subpoena the program shall comply, but will make every effort to notify the eligible student or parent of the order or subpoena in advance of compliance.
  - Upon receipt of request from the Department of Children and Families, a probation officer, a justice of any court, or the Department of Children and Families
  - Federal, state and local education officials, and their authorized agents shall be permitted access to student records in connection with the audit, evaluation or enforcement of federal and state education laws, or programs. When the collection of personally identifiable information is specifically authorized by law, the data collected is to be protected so that parties other than these officials cannot identify the students and their parents. Personally identifiable data obtained must be destroyed when no longer needed for this purpose.
  - The Collaborative staff may disclose information regarding a student to appropriate parties in connection with a health or safety emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals, which may include the local police department and the Department of Children and Families.
  - Upon notification by law enforcement authorities of a missing child, either current or former, a mark shall be placed in the student record. The school shall report any request concerning the student records of the missing child to the appropriate law enforcement authorities.
  - Authorized school personnel of a school that a student seeks or intends to attend may have access.
  - School health and local and state health department personnel may have access to

student health records when access is required for the performance of their official duties.

7. Access Procedures for Non-Custodial Parents - a non-custodial parent may have access to the student record in accordance with the following provisions. (A non-custodial parent is defined as any parent who by court order does not have physical custody of the student.)
  - A non-custodial parent is eligible to obtain access to the student record unless:
    - i. The parent has been denied legal custody based on a threat to the safety of the student or to the custodial parent, or
    - ii. The parent has been denied visitation or has been ordered to supervised visitation, or
    - iii. The parent's access to the student or to the custodial parent has been restricted by a temporary or permanent protective order, unless the protective order (or any subsequent order modifying the protective order) specifically allows access to the information contained in the student record.
  - In order to obtain access, the non-custodial parent must submit a written request for the student record to the principal or his/her designee annually. The initial request must include the following:
    - i. A certified copy of the court order or judgment relative to the custody of the student that either indicates that the requesting parent is eligible to receive access or a certified copy of a court order specifically ordering that the student records be made available to the non-custodial parent, and
    - ii. An affidavit from the non-custodial parent that said court order or judgment remains in effect and that there is no temporary or permanent order restricting access to the custodial parent or any child in the custodial parent's custody.
  - The non-custodial parent must submit a written request for access each year stating that said parent continues to be entitled to unsupervised visitation with the student and is eligible to obtain access.
  - Upon receipt of the request (initial and annual) the school must immediately notify the custodial parent by certified and first class mail, in English and the primary language of the custodial parent, that it will provide the non-custodial parent with access after 21 days, unless the custodial parent provides the principal or his/her designee or the Executive Director with documentation that non-custodial parent is not eligible to obtain access.
  - The school must delete the address and telephone number of the student and custodial parent from student records provided to non-custodial parents. In addition, such records must be marked to indicate that they shall not be used to enroll the student in another school.
  - Upon receipt of a court order, which prohibits the distribution of information (M.G.L. c. 71, § 34H), the school shall notify the non-custodial parent that it shall cease to provide access to the student record to the non-custodial parent.

### **Amending Student Records**

1. The eligible student or parent has the right to add information, comments, data or any other relevant written material to the student record.
2. The eligible student or parent shall have right to request in writing deletion or amendment of any information contained in the student record, except for information inserted into the

student record by the Evaluation Team. This request may be accepted after the acceptance of an IEP. If the IEP is rejected, the request may be accepted following the completion of the special education appeal process.

3. Any deletion or amendment of the student record will be done in accordance with the following:
  - If in the opinion of the eligible student or parent, adding information to the student record is not sufficient to explain, clarify or correct objectionable material, they have the right to present their objection in writing and to request in writing to have a conference with the principal or his/her designee to make their objections known.
  - Within one week of receipt of the objection or following the conference, the principal or his/her designee will render his/her decision in writing, stating the reasons for the decision. If the decision is in favor of the eligible student or parent, the principal or his/her designee will promptly put the decision into effect.
5. In the event that the eligible student or parent should disagree with any part of the decision made by the principal or his/her designee, they may appeal the decision and/or request a meeting in writing with the Executive Director. The Executive Director must respond in writing within two weeks of receipt of the appeal and will promptly see that his decision is put into effect.
6. If the eligible student or parent is still unsatisfied with the decision, it is recommended that they then contact the Director of Special Education of their sending district and express their concerns in writing.

### **Destruction of Student Records**

Destruction of student records will be handled as follows:

During the time a student is enrolled in a program of the Collaborative, the principal or his/her designee of that program shall periodically review and destroy misleading, outdated, or irrelevant information contained in the temporary record provided that the eligible student, his/her parent, and sending district are notified in writing and are given opportunity to receive the information or a copy of it prior to its' destruction. A copy of the notice shall be placed in the temporary record.

### **Student Records for Students No Longer Enrolled**

The principal or his/her designee will forward the Student Records of all students upon graduation or termination of enrollment to the appropriate LEA.

## **RIGHTS AND RESPONSIBILITIES OF STUDENTS AND PARENTS**

### **Rights of Students**

It is impossible to list all students' rights. The following is a non-exhaustive list of student rights which shall not be construed to deny or limit other rights retained by students, in their capacity as members of a school, or as citizens.

Students have the right to:

- Participate fully in classroom instruction and extracurricular activities regardless of race, color, age, disability, gender, religion, national origin, or sexual orientation.
- A meaningful education that will be of value to them for the rest of their lives.
- Maintenance of high educational standards and the development of maximum potential.
- A meaningful curriculum and the right to voice their opinions in the development of such a curriculum.
- Physical safety and protection of personal property.
- Safe buildings, sanitary facilities, and available drinkable water. Students have the right to use school supplies and facilities and work in a clean, organized environment.
- Receive respect from teachers and administrators, which would exclude their being subjected to cruel and unusual punishments, especially those which are demeaning or derogatory, or which diminish their self-esteem.
- Consult with teachers, counselors, and administrators, and anyone else connected with their program if they so desire at appropriate times.
- Express their opinions and feelings.
- If high school student, freedom of expression provided that they do not cause any disruption or disorder within the school. Freedom of expression shall include without limitation, the rights and responsibilities of students, collectively and individually (a) to express their views through speech and symbols; (b) to write, publish and disseminate their views; and (c) to assemble peaceably on school property for the purpose of expressing their opinions. Any assembly planned by students during regularly scheduled school hours shall be held only at a time and place approved in advance by the Program Manager/Director or his/her designee. No expression made by the students in the exercise of these rights shall be an expression of school policy and no school officials shall be held responsible for any civil or criminal action for any expression made or published by the students.
- If high school students, personal dress and appearance as long as they do not violate reasonable standards of health, safety and cleanliness or disrupt the learning environment of others.
- The protections provided by state and federal special education concerning disciplinary actions resulting from manifestations of disabilities.
- Present petitions, complaints, or grievances to appropriate school authorities regarding disciplinary and other school-related issues except where this Handbook provides for formal right of appeal.
- Personal privacy, including the right to determine their own appearance and select their own style of hair and clothing, subject to reasonable rules necessary for health and safety.

- Not to be suspended, expelled, or otherwise disciplined or discriminated against on account of marriage, pregnancy, and parenthood or for conduct, which is not connected with any school-sponsored activities.
- Pregnant students will be permitted to continue in school in all instances when continued attendance has the sanction of the expectant mother's physician. The physician's approval must be on file at the school. The student and the physician, in cooperation with the school staff, will develop an appropriate educational plan if it is agreed she should no longer attend school regularly.

### **Responsibilities of Students**

Responsibilities are not a substitute for rules which are included in the Code of Conduct as described below in this Handbook. However, while it is not possible to list all student responsibilities, students who consistently behave in accordance with the following list of broad responsibilities will be in compliance with the rules of the Code of Conduct.

Students have the responsibility to:

- Respect the rights of all persons involved in the educational process.
- Respect the authority of school staff.
- Respect the diversity of staff and students in the Collaborative with regard to race, color, ethnicity, national origin, religion, sex, marriage, pregnancy, parenthood, sexual orientation, primary language, handicap, special needs, age, and economic class.
- Contribute to the maintenance of a safe and positive educational environment.
- Apply their abilities and interests to the improvement of their education.
- Exercise the highest degree of self-discipline in observing and adhering to rules and regulations.
- Recognize that responsibility is inherent in the exercise of every right.

### **Responsibilities of Parents**

Parents have the responsibility to:

- Share the responsibility for the behavior of their child in school, at school-sponsored activities, and on the way to and from school.
- Prepare the child to assume responsibility for attending school, and for his or her own behavior.
- Foster in the child positive attitudes toward himself or herself, others, school, and the community.
- Communicate with school personnel about the child.
- Attend individual or group conferences.
- Recognize that the school staff has the right to enforce the policies, rules, and regulations of the Collaborative.
- Behave in a civil and non-disruptive manner when visiting the school.
- Assure that their child brings to school only those things that are appropriate in a school setting.

## **STUDENT CODE OF CONDUCT**

### **Nondiscrimination, Civil Rights, and Due Process**

In accordance with M.G.L. c. 76, s. 5, the Collaborative is committed to maintaining an educational environment where bigotry and intolerance, including discrimination on the basis of race, color, national origin, sex, sexual orientation, gender, gender identity, religious beliefs, disability, or age have no place; and where any form of coercion or harassment that insults the dignity of others and creates an intimidating, threatening, or abusive educational environment is unacceptable. The Collaborative will not tolerate discrimination or the infringement of another's civil rights. This policy shall apply to conduct that occurs on Collaborative or school grounds, at school or Collaborative related activities, or traveling to or from school Collaborative related activities.

### **Prohibited Conduct**

Conduct prohibited under this policy includes, but is not limited to:

- 1) **Bias Motivated Conduct**: Any act, including conduct or speech, directed at or which occurs to a person or property because of actual or perceived race, color, national origin, ethnicity, religion, sex, gender identify, sexual orientation, disability, or age.
- 2) **Discrimination**: The unequal treatment of others based on race, color, national origin, ethnicity, religion, sex, sexual orientation, disability, or age.
- 3) **Harassment**: Unwelcome, verbal, written or physical conduct targeting specific person(s), which is sufficiently severe, persistent, or pervasive to create an intimidating, hostile, humiliating, or offensive school environment, or substantially interfere with the progress of a student's education.
- 4) **Sexual Harassment**: Physical or verbal conduct of a sexual nature, not limited to but including sexual advances, which foster a hostile educational environment for the victim, sexual assault, and rape.
- 5) **Hate Crimes**: Criminal acts to which recognized types of bias motives are an evident contributing factor. Criminal bias-motivated conduct entails, at a minimum, threats. Criminal conduct includes acts putting someone in fear of immediate physical harm (assaults), and actual physical violence (assault and battery), and grows most serious if a victim suffers any bodily injury. Repeated threatening or menacing actions like following someone can amount to the crime of stalking.
- 6) **Hostile Environment**: Subjecting another student to threats, intimidation, or coercion that is/are sufficiently severe, persistent, or pervasive so as to interfere with or limit a student's ability to participate in or benefit from the Collaborative's programs or activities or place the student in reasonable fear for his or her safety. Whether a school environment has become hostile must be evaluated based on the totality of the circumstances. A hostile

environment does not necessarily entail that a student exhibits quantifiable harm, such as a drop in grades.

- 7) **Stalking:** Intentional conduct involving two or more acts directed at a specific person, which would cause an average person substantial distress, where the perpetrator has made threats causing the targeted person fear of death or injury.
- 8) **Retaliation:** Retaliating in any way against another student for complaining of conduct prohibited under this policy.
- 9) **Bullying:** See Collaborative Bullying Prevention Plan contained in this Handbook.
- 10) **Hazing:** Conduct or any method of initiation into any student organization (official or unofficial), whether on public or private property, which willfully or recklessly endangers the physical or mental health of any student or person. Hazing is a crime in Massachusetts. See the anti-hazing section of this Handbook for more information.

### **Commitment to Prevention and Investigation**

The Collaborative is committed to the prevention and accurate reporting of all incidents of civil rights violations such that all students and staff can enjoy a safe, non-threatening educational and working environment. Program administrators will thoroughly investigate all instances of violation and take disciplinary appropriate disciplinary action in accordance with this Handbook, as well as report such instances to law enforcement agencies where appropriate. Collaborative staff must intervene in all civil rights violations and instances of harassment whenever witnessed, reported or suspected. The Executive Director and the applicable principal will be notified immediately whenever civil rights violations are in question, and Collaborative staff will move quickly in preventing a recurrence of any civil rights violation or incidence of harassment.

### **Procedures for Responding to and Investigating Incidents**

- All instances of civil rights violations, witnessed or suspected, must be reported to the applicable principal or the Executive Director.
- Any student coming forward to report a civil rights violation he or she has experienced will be directed to the applicable principal or the Executive Director, following any emergency needs being attended to.
- Consideration will be given to whether any immediate or interim steps are necessary to ensure the safety of and avert retaliation of the complainant
- The investigation must determine whether a civil rights violation has in fact occurred.
- The investigation must include preservation and gathering of evidence from the scene of an incident. For example, bias-related notes will be copied.
- The investigation will include interviewing victims and witnesses as soon as possible, as well as others who may have relevant knowledge.
- The investigation may include other methods and documents deemed relevant and useful.
- All interviews and evidence should be carefully evaluated for the presence of bias indicators that would characterize the matter as a civil rights violation.
- The investigation will conclude with a finding as to whether a civil rights violation has or has not occurred.

### **Consequences for Civil Rights Violations**

1. Non-disciplinary corrective actions: Some violations can be addressed with steps that do not necessitate disciplinary action. These steps usually lay within the discretion of the principal or his/her designee. Such instances may warrant counseling, diversity awareness training, separating offender and victim, parent conferences, and/or special school assignments.
2. Disciplinary Action: Disciplinary actions will be taken toward the goal of eliminating the offending conduct, preventing recurrence, and reestablishing a school environment conducive for the victim to learn. Violations of civil rights of students or staff may result in sanctions including suspension, emergency termination of enrollment, and expulsion for students and suspension, depending on the severity of the infraction.
3. Failure to Act by Administrators or Staff – All staff have a duty to act to stop witnessed civil rights violations, as safely as can be done, and report such instances to program administrators. Failure to do so may result in disciplinary action.

### **Commitment to Non-Retaliation**

The Collaborative will deal seriously with any and all threats or acts of retaliation for the good faith filing of a complaint. Such action will result in disciplinary proceedings. Staff will monitor situations to ensure that no threats or acts of reprisal are made. Program administrators may use non-disciplinary procedures to prevent retaliation from occurring.

### **Referral to Law Enforcement Authorities**

The Executive Director or designee has the responsibility of notifying the local police when they have reason to believe that a hate crime has been or is to be committed. This is mandatory for all hate crimes violations.

### **Documentation Requirements**

- Record keeping –Records of all civil rights violations and hate crimes reported are maintained. Records will be compiled by school year. Record keeping will include particulars of the incident, response actions taken, results of the investigation and intervention.
- Monitoring and tracking to identify patterns – Records should be maintained and monitored to detect patterns in violations, repeat offenders, and locations for problems. Actions will be taken once patterns have been revealed.

### **Dissemination of Information and Training**

- This policy will be available to staff, students and parents.
- Staff will receive training relevant to this policy annually during staff orientation.
- Students and parents will receive this policy annually and at time of admission to a Collaborative program.
- This policy will be reviewed annually for compliance with state and federal law.

### **Section 504 of the Rehabilitation Act**

Section 504 of the Rehabilitation Act of 1973 prohibits discrimination against persons with a disability in any program receiving federal financial assistance, which includes the programs of the

Collaborative. Principals or their designees will serve as the 504 Coordinator for all students entering the program under a 504 Plan.

### **Student Rules**

- 1) **Attendance and Tardiness**: Collaborative students are expected to attend school on all days and on time. The student or their parent(s) are expected to let staff know prior to 8:00 A.M. if a student is ill, will not be attending school that day, or will be tardy. If a student is absent or tardy and no phone call is made, a call will be made to the student's home. Unexcused absences and excessive tardiness are unacceptable.
- 2) **Appropriate Language**: Collaborative students are prohibited from swearing, making rude comments or inappropriate noises, or using inappropriate voice levels.
- 3) **Appropriate Dress**: Students are expected to wear appropriate clothes for school or work. If they are working in an office or an outdoor maintenance setting, clothes should be chosen accordingly.
- 4) **Borrowing of Money**: Students are not permitted to borrow money from other students, purchase items for other students or sell items to other students.
- 5) **Transportation**: Individual sending districts are responsible for transportation of students to/from school/home each day. Students are not permitted to drive to school. If a student has a specific reason why he/she should be able to drive to school they may petition the Collaborative program. The Collaborative would then make a decision and notify the principal as well as the Special Education Director of the student's sending district to obtain their permission. Students cannot be driven to school or picked up from school without staff and parental permission. Parents need to complete a transportation permission slip for students to be driven to or picked up from Collaborative programming. Students will only be permitted to be transported by those people the parent has indicated are appropriate (See Release of Students to Adults Other than Parents). If any of these people become disruptive to the school environment the Collaborative has the authority to not allow that person on school grounds. Students are not permitted to ride home on any bus or van except the one to which they have been assigned. Students are not permitted to drive to school or be picked up from school without permission from the Collaborative.
- 6) **Appropriate Conduct**: Students are expected to behave in an appropriate manner exhibiting respect for themselves and others at all times while in school or participating in Collaborative programs or activities, including off-site and Collaborative related activities such as field trips.
- 7) **Leaving the School Building**: Students are not permitted to leave the school building, work site, or vehicle without permission from the staff. The staff is responsible for each student's welfare, and expects students to treat the staff with respect and let them know where each student is at all times.
- 8) **Portable Music Players/Electronics Games**: Students are not permitted to use any of these

devices during the school day. If they are brought in for use on the bus, they need to remain in the locker area at all times.

- 9) Cellular Telephones: Students are only permitted to use cellular phones before and after school hours outside of school buildings, or at evening or weekend activities inside school buildings. The use of cell phones for any purpose is not permitted at any other time on school grounds. Cell phones must not be visible during the school day and must be turned off (not simply on silent or vibrate mode).
- 10) Personal Property: The Collaborative strongly encourages that students do not bring valuable items to school. If the personal property of a student causes disruption while at school, the Collaborative may take the property away from the student. The Collaborative will make every effort to return all personal property to the student or parent. However, the Collaborative is not responsible for lost or stolen property, or compensating students or parents for value of such property.
- 11) Drugs or Alcohol: No drugs or alcohol are permitted in school or on school grounds, and students are not permitted to come to school under the influence of substances. The possession, use, manufacture, distribution, sale, or possession with intent to sell, or dispensation of alcohol, marijuana, illegal drugs, or other illegal or controlled substances of any kind is strictly prohibited.
- 12) Smoking and Tobacco: In accordance with M.G.L. c. 71, § 2A, it is unlawful for any student enrolled in a public primary or secondary school in the Commonwealth to use tobacco products of any kind, including but not limited to cigarettes, cigars, pipes, and smokeless tobacco. The use of any tobacco products is prohibited within the Collaborative school buildings, the school facilities, on the school grounds, or on school buses by any individual, including school personnel.
- 13) Theft and Vandalism: Students are prohibited from stealing, vandalizing, or destroying the property of others, including property belonging to the Collaborative or its staff, faculty, students, parents, volunteers, and visitors. School pride is enhanced by a well maintained and clean building. The Collaborative hopes that all students will share in this belief. Students involved in theft, vandalism, graffiti, destruction of property, or arson will be required to reimburse the school for the materials and labor necessary to fix any damage they cause, and will be subject to appropriate disciplinary action, up to and including suspension, emergency termination of enrollment, or expulsion
- 14) Weapons: The Collaborative strictly prohibits the possession of all weapons in school, on school grounds, school buses, or at any school functions. All knives, handguns, rifles, shotguns, other fire arms, explosives, incendiary devices, and other weapons are forbidden. If a student is found to be in possession of such an object for which there is clearly no known educational use, the weapon will be confiscated it and the student's parents will be notified, and if necessary, the police will also be contacted.

The Federal Gun-Free School Act of 1994 (GFSA) is Section 14601 of the Improving America's Schools Act, and deals with disciplining special education students in compliance with the IDEA in cases where the student is found in possession of a firearm. The GFSA permits the Collaborative to place a special education student found in possession of a firearm in an interim alternative educational setting as determined by the evaluation team for up to 45 days. The student shall remain in the interim alternative setting pending any special education manifestation determination or special education hearing initiated by the parent, unless the parent and the Collaborative agrees otherwise.

- 15) Violence and Threats of Violence: All violence and threats of violence (including physical fighting, assault, battery, kidnapping, threat of robbery, robbery using force, homicide, other drug-related or crime-related violence, and all acts that endanger or cause bodily harm to others) are strictly prohibited at school, the Collaborative, or Collaborative related activities. All threats of violence or physical attack will be taken seriously by the Collaborative.
- 16) Destruction of Property: Students are prohibited from the destruction of Collaborative property or the property of others.
- 17) Student Lockers: Some Collaborative students will be provided with lockers to store school supplies and personal belongings. It is important for students and parents to understand that lockers remain the property of the Collaborative or school in which they are located. Collaborative and school staff have the right to search lockers and any personal items inside lockers where reasonable cause to do so exists.
- 18) Care of Books and Other Materials: The Collaborative supplies students with the textbooks and other educational materials they need for school, free of charge. Textbooks and library books are owned by the Collaborative. If a student damages or loses a book or other school property, the student or parent may have to pay for a replacement. Families should be aware that many textbooks are very expensive.
- 19) Rules of Public Schools with Co-located Collaborative Programs: Students in Collaborative programs co-located within public schools are also subject to the rules of those public schools.

## **DISCIPLINARY ACTION**

All students have the responsibility to comply with the rules and policies set forth in this Handbook and to refrain from engaging in negative or disruptive behavior, or violating the rights of others. Any failure to comply with the rules or policies contained in this Handbook may result in disciplinary action, up to and including suspension, emergency termination, and/or expulsion. Disciplinary proceedings will be conducted on an individual basis. Disciplinary action will depend on and be commensurate with the circumstances, nature, and severity of a student's infraction. Where possible and appropriate, the Collaborative will include all parties involved or affected by the negative or disruptive behavior in the disciplinary decision making process. In preparing students for the adult world, it is important that they learn and understand the effect that

their behavior has on others and the consequences of their actions, to the extent that they are able.

In the event that a student repeatedly disrupts others, it will be necessary for the parents and school system to be notified. A meeting will be called, if determined necessary. If a student leaves the school premises, the parents and school system will be notified. The local police will also be notified.

No student shall be subjected to abuse or neglect, cruel, unusual, severe or corporal punishment, including the following practices:

- Any type of physical hitting or pain inflicted in any manner upon the body;
- Requiring or forcing the student to take an uncomfortable position such as squatting or bending or requiring or forcing the student to repeat physical movements when used as punishment;
- Punishments which subject the student to verbal abuse, ridicule or humiliation;
- Denial of visitation or communication privileges with family;
- Denial of sufficient sleep;
- Denial of shelter, bedding, food or bathroom facilities.

### **Felony Complaint or Conviction of Student; Suspension; Right to Appeal**

Upon the issuance of a criminal complaint charging a student with a felony or upon the issuance of a felony delinquency complaint upon a student, the principal or his/her designee may suspend such student for a period of time determined appropriate by said principal or his/her designee if said principal or his/her designee determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school. The student shall receive written notification of the charges and the reason for such suspension prior to such suspension taking effect. The student shall also receive written notification of this right to appeal and the process for appealing such suspension; provided, however, that such suspension shall remain in effect prior to any appeal hearing conducted by the Executive Director.

The student shall receive written notification of the charges and the reason for such suspension prior to such suspension taking effect. The student will also receive written notification of this right to appear and the process for appealing such suspension; provided, however, that such suspension shall remain in effect prior to any appeal hearing conducted by the Executive Director.

The student shall notify the Executive Director in writing of his request for an appeal no later than five (5) calendar days following the effective date of the suspension. The Executive Director shall hold a hearing with the student and the student's parent(s) within three (3) calendar days of the student's request for an appeal. At the hearing, the student shall have a right to present oral and written testimony on his/her behalf, and shall have the right to counsel. The Executive Director shall have the authority to overturn or alter the decision of the principal or his/her designee. The Executive Director shall render decision on the appeal within five (5) calendar days of the hearing.

Such decision shall be the final decision of the Collaborative with regard to the suspension.

Upon a student being convicted of a felony or upon an adjudication or admission in court of guilt with respect to such a felony or felony delinquency, the Executive Director may determine that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the Collaborative program. In that instance the Executive Director may move for an Emergency Termination.

### **Suspension**

The Collaborative's policy is to try every available means to manage a student's behavior in school. Suspension is viewed as a serious matter that is implemented only when the student does not respond to interventions that have been specifically designed to address the situation. A student may be suspended because of a continuing pattern or escalation of aggression towards staff and/or students, violations of the Student Code of Conduct, or any other unsafe behavior. While some students have occasional aggressive behavior, it is only when this behavior constitutes a continual ongoing threat to the safety of the student, staff and/or other students that a suspension would occur.

The decision to suspend a student is made by the Principal. Ordinarily, a suspension would not occur without the parent/guardian having been previously informed of the current difficulty with behavior support. At the time of suspension or shortly thereafter, the Principal, together with staff and parents make a plan for re-entry of the student.

Suspension shall be defined as any action, which results in the removal of a student from the program prescribed in his/her IEP. The term includes in-school suspension, as well as any exclusion from transportation services, which prohibits the student's participation in his/her prescribed program. (Sending a student home "early" is considered a suspension if the student's IEP does not allow for a modification of the learning hours.)

The Collaborative will immediately notify the parents and sending school or human service agency responsible for the placement when a student is suspended. Within 24 hours, the school sends a written statement explaining the reasons for the suspension to the parents and sending school district. No student is sent home until a responsible adult is available to receive the student. Students are responsible for making up missed work while on suspension and Collaborative staff will assist in providing instruction and materials as necessary.

### **3 to 5 Day Suspension**

If a student has been suspended for three (3) consecutive school days or five (5) non-consecutive school days in a school year, the program convenes a meeting with the Team to explore possible program modifications within the program in an attempt to prevent total suspension of the student. Student suspensions are recorded; the number and duration are tracked, including suspensions from any part of the student's IEP. Suspension from transportation is included in the tracking.

### **Suspensions exceeding 10 days (consecutive or cumulative in one year)**

The Collaborative provides the following safeguards for students with disabilities prior to any suspension beyond 10 consecutive days or more than 10 cumulative days (if there is a pattern of suspension) in any school year.

1. A suspension of longer than 10 consecutive days or a series of suspensions that are shorter than 10 consecutive days but constitute a pattern are considered to represent a change in placement.
2. When a suspension constitutes a change in placement of a student with disabilities, the Collaborative, sending district personnel, the parent(s), and other relevant members of the Team, as determined by the Collaborative, parent(s) and the sending district, convene within 10 days of the decision to suspend to review all relevant information in the student's file, including the IEP, any teacher observations, and any relevant information from the parents, to determine whether the behavior was caused by or had a direct and substantial relationship to the disability or was the direct result of the failure to implement the IEP—"a manifestation determination."
3. If the Collaborative, the sending district, the parent(s), and other relevant members of the Team determine that the behavior is not a manifestation of the disability, then the suspension or expulsion may go forward consistent with Collaborative policies and procedures. The sending district, however must offer the student:
  - a. services to enable the student, although in another setting, to continue to participate in general education curriculum and to progress toward IEP goals; and
  - b. as appropriate, a functional behavior assessment and behavioral intervention services and modifications, to address the behavior so that it does not recur.
4. If the Collaborative, the sending district, the parent(s), and other relevant members of the Team determine that the behavior is a manifestation of the disability, then the Team completes a functional behavioral assessment and behavioral intervention plan if it has not already done so. If a behavioral intervention plan is already in place, the Team reviews it and modifies it, as necessary, to address the behavior. Except when he or she has been placed in an interim alternative educational setting, the student returns to the original placement unless the Collaborative, parent(s) and sending district agree otherwise or the hearing officer orders a new placement.
5. No later than the date of the decision to take disciplinary action, the parent(s) is notified of that decision and provided with written notice of procedural safeguards. Any party may requests a hearing because it believes that maintaining the student's current placement is substantially likely to result in injury to the student or others, the student remains in the disciplinary placement, if any, until the decision of the hearing officer or the end of the time period for the disciplinary action, whichever comes first, unless the parent and the school district agree otherwise.

### **School Wide Education Plan**

To insure that our students do not regress when suspended professional tutoring is provided by Education Inc. or Valley Collaborative Staff.

### **INTERNET USE POLICY**

**Students should read this policy and complete the Student Internet Use Agreement and Parental Permission Form (Appendix I). The permission form is required for internet use.**

#### **Introduction**

Valley Collaborative's aims to provide students with accessible, up-to-date and reliable

information to support them in their studies and educational experience. This goal requires the Collaborative to provide access to the vast information resources on the Internet to help students in their studies and to be well informed. The Internet is an educational tool for the Collaborative. Users must understand that this access is for educational purposes and not for non- educational activities. Students will be utilizing the Internet, but WILL NOT have access to email or instant messaging.

### **Internet Use**

The Collaborative provides students with Internet access in most classrooms and some locations have computer labs. All students may have access to the Internet. Students who wish this access must read and sign the “Student Internet/Email Usage Policy” form.

### **Authorized Use**

The Collaborative’s Internet connection is intended primarily for educational use. That means we expect students to use Internet access primarily for education-related purposes, i.e. to research relevant topics and to obtain useful information. The following are specific provisions regarding authorized use of the Collaborative's Internet connection:

- Users may use the Collaborative’s Internet services for personal improvement provided that such use is consistent with staff and educational conduct.
- Internet use should be restricted to sites and materials such as news or information that might be considered reasonable if read as a text publication in a classroom or library environment.

### **Unauthorized Use**

Users shall not use the Collaborative’s Internet services to view, download, save, receive, or send material related to the following:

- Offensive content of any kind, including pornographic material.
- Propagating a virus, worm, Trojan horse, or trap-door program code.
- Disabling or overload any computer system or network.
- Circumventing any system intended to protect the privacy or security of another user.
- Promoting discrimination on the basis of race, religion, ethnicity, disability, gender, sexual orientation race, age, or marital status.
- Visiting web sites that promote threatening or violent behavior.
- Using the Internet for illegal activities including the illegal downloading of music, movies, or other copyrighted materials.
- Distributing commercial messages.
- Gambling web sites.
- Hosting of ‘game servers’ for online or network gaming.

The above list of prohibited actions is by way of an example only and is not intended to be exhaustive.

### **Privacy and Monitoring**

The Collaborative has software and systems in place to monitor and record all Internet usage. The Collaborative’s security systems are capable of recording each Web site, email, and instant

message into and out of its internal networks. The Collaborative reserves the right to do so at any time. No student should have any expectation of privacy as to his or her Internet usage. The Collaborative's technicians will periodically review Internet activity and contact staff of improper use to ensure that the Collaborative Internet resources are devoted to maintaining the highest levels of access and integrity. The Collaborative reserve the right to inspect any and all files stored in private areas of its network in order to assure compliance with this policy.

### **Accidental/Unintended Violations**

The Collaborative does utilize software designed to identify inappropriate or sexually explicit Internet sites. The Collaborative blocks access from within its networks to all such sites. If a student accidentally connects to a site that contains sexually explicit or offensive material, they must disconnect from that site immediately, regardless of whether that site had been previously deemed acceptable by any screening or rating program. A user who accidentally accesses a prohibited site is encouraged to report the incident to staff without the threat of consequences.

### **Consequences**

Students who are not responsible and who do not follow the Collaborative's policies on the use of the Internet and email may face one or all of the following penalties. Remember, the use of the Internet and various technologies offered by the Collaborative is a privilege, not a right.

#### ***Students grades K-5***

- Parent Notification
- District Notification
- Possible Parent Conference or Team Meeting
- Loss of Internet access

#### ***Students grades 6-12+***

- Parent Notification
- District Notification
- Possible Parent Conference or Team Meeting
- Loss of Internet access
- Possible Suspension from school
- Civil and Criminal Penalties when appropriate

### **POLICIES RELATIVE TO CONDUCT OF TEACHERS OR STUDENTS**

The superintendent of every school district shall publish the district's policies pertaining to the conduct of teachers and students. Said policies shall prohibit the use of any tobacco products within the school buildings, the school facilities or on the school grounds or on school buses by any individual, including school personnel. Said policies shall further restrict operators of school buses and personal motor vehicles, including students, faculty, staff and visitors, from idling such vehicles on school grounds, consistent with section 16B of chapter 90 and regulations adopted pursuant thereto and by the department. Copies of these policies shall be provided to any person upon request and without cost by the principal of every school within the district.

Each school district's policies pertaining to the conduct of students shall include the following: disciplinary proceedings, including procedures assuring due process; standards and procedures for

suspension and expulsion of students; procedures pertaining to discipline of students with special needs; standards and procedures to assure school building security and safety of students and school personnel; and the disciplinary measures to be taken in cases involving the possession or use of illegal substances or weapons, the use of force, vandalism, or violation of a student's civil rights. Codes of discipline, as well as procedures used to develop such codes shall be filed with the Department of Elementary and Secondary Education for informational purposes only.

In each school building containing the grades nine (9) to twelve (12), inclusive, the principal, in consultation with the school council, shall prepare and distribute to each student a copy of this Handbook setting forth the rules pertaining to the conduct of students. The Board of Directors shall review this Handbook each year to consider changes in disciplinary policy to take effect in September of the following school year, but may consider policy changes at any time. The annual review shall cover all areas of student conduct, including but not limited to those outlined in this section.

Notwithstanding any general or special law to the contrary, all student handbooks shall contain the following provisions:

(b) Any student who is found on school premises or at school-sponsored or school-related events, including athletic games, in possession of a dangerous weapon, including, but not limited to, a gun or a knife; or a controlled substance as defined in M.G.L. c. 94C, including, but not limited to, marijuana, cocaine, and heroin, may be subject to expulsion from the school or school district by the principal.

(c) Any student who assaults a principal, assistant principal, teacher, teacher's aide or other educational staff on school premises or at school-sponsored or school-related events, including athletic games, may be subject to expulsion from the school or school district by the principal.

(d) Any student who is charged with a violation of either paragraph (a) or (b) shall be notified in writing of an opportunity for a hearing; provided, however, that the student may have representation, along with the opportunity to present evidence and witnesses at said hearing before the principal.

After said hearing, a principal may, in his/her discretion, decide to suspend rather than expel a student who has been determined by the principal to have violated either paragraph (a) or (b).

(e) Any student who has been expelled from a school district pursuant to these provisions shall have the right to appeal to the superintendent. The expelled student shall have ten days from the date of the expulsion in which to notify the superintendent of his appeal. The student has the right to counsel at a hearing before the superintendent. The subject matter of the appeal shall not be limited solely to a factual determination of whether the student has violated any provisions of this section.

(f) When a student is expelled under the provisions of this section, no school or school district within the commonwealth shall be required to admit such student or to provide educational services to said student. If said student does apply for admission to another school or school district, the superintendent of the school district to which the application is made may request and shall receive from the superintendent of the school expelling said student a written statement of the reasons for said expulsion.

## **STAFF POLICIES**

### **STAFF ORIENTATION; ANNUAL TRAINING; AND PROFESSIONAL DEVELOPMENT**

#### **Orientation**

Staff orientation is the responsibility of Collaborative principals. Staff orientation is mandatory for all full and part-time staff, for interns and for volunteers.

#### **Annual Training**

All staff, including new employees, interns and volunteers, must participate in annual in-service training on average at least two hours per month. The following topics are required in-service training topics and must be provided annually to all staff:

- Reporting abuse and neglect of students to the Department of Children and Families and/or the Disabled Persons Protection Commission;
- Disciplinary and behavior support Procedures used by the program, such as positive reinforcement, point/level systems, token economies, time-out procedures and suspensions and terminations; as well as Restraint Procedures including de-escalation methods used by the program;
- Runaway policy;
- Emergency procedures including Evacuation Drills and Emergency Drills; and
- Civil rights responsibilities (discrimination and harassment).

The following additional topics are required in-service training topics and must be provided annually to all teaching staff:

- How the learning standards of the Massachusetts Curriculum Frameworks are incorporated into the program's instruction;
- Procedures for inclusion of all students in MCAS testing and/or alternate assessments; and
- Student record policies and confidentiality issues.

The following additional topics are required in-service training topics and must be provided annually to appropriate staff based on their job responsibilities:

- CPR training and certification;
- Medication administration (including, but not limited to, administration of antipsychotic medications and discussions of medications students are currently taking and their possible side effects);
- Transportation safety (for staff with transportation-related job responsibilities); and Student record policies and confidentiality issues (for staff who oversee, maintain or access student records).

#### **Professional Development**

The Collaborative considers the needs of all staff in developing training opportunities for professional and paraprofessional staff and provides a variety of offerings. To this end, the Collaborative ensures that all staff, including both special education and general education staff, are trained on state and federal special education requirements and related local special education

policies and procedures;

The Collaborative provides in-service training for all locally hired and contracted transportation providers, before they begin transporting any special education student receiving special transportation, on his or her needs and appropriate methods of meeting those needs; for any such student it also provides written information on the nature of any needs or problems that may cause difficulties, along with information on appropriate emergency measures. Transportation providers include drivers of general and special education vehicles and any attendants or aides identified by a Team for either type of vehicle.

### **STAFF CODE OF CONDUCT**

The Collaborative considers professionalism to be of utmost importance. We expect our staff's conduct to be professional and ethical at all times. The following behaviors are expected of all staff.

- Behave in a professional manner at all times while on school premises or at a function at which the staff is a representative of the Collaborative.
- Follow all policies and procedures, manuals, and handbooks as outlined.
- Conduct day-to-day activities in a safe, responsible manner, and avoid situations that may endanger the safety of others.
- Maintain the security of confidential information. Unauthorized disclosure of confidential information is forbidden.
- No smoking or other use of tobacco products and no illegal or unauthorized drugs or alcohol at any Collaborative program, field trip or function.
- Provide accurate and non-judgmental information on all school records and reports.
- Regularly report to work on time, and give notification of any absences in a prompt and responsible manner in accordance with Collaborative policies and procedures.
- Complete assignments accurately and in a timely manner.
- Utilize only Collaborative-sanctioned modes of communication with students and follow all applicable laws, regulations, and Collaborative policies. This includes complying with the social media policy in the Employee Handbook.

**Valley Collaborative  
Observation Request Form**

With this form you should have received a copy of the Collaborative’s “School Visitor Procedures” and “Observation Policy”. Please review those documents carefully before completing this form and again before arriving for your pre-arranged visit. Please thoroughly and carefully complete this form in order to help the Collaborative best arrange for a visit that will meet your needs as well as cause minimum disruption to the students and staff. This form must be completed and returned to the main office of the building you wish to visit at least five (5) days prior to the date of any requested visit.

## Appendix D

### **EPE Program Authorization, Assumption of Risk, Release, and Indemnity Agreement**

I understand that, in connection with my/my child's participation in the Valley Collaborative (the "Collaborative") Experiential Physical Education Program (the "EPE Program") during the school year, I/my child will engage in physical activities at school and on field trips locally, out-of-town, and out-of-state. I understand that such activities include, but are not limited to, archery, canoeing, cross-country skiing, downhill skiing, snowboarding, snowshoeing, fishing, geocaching, hiking, physical fitness training, rappelling, rock climbing, ropes courses, whitewater rafting, and other similar activities. I understand that my/my child's participation in the EPE Program also will include travel and transportation in connection with such activities and field trips. I authorize myself/my child to voluntarily participate in the EPE Program and in consideration for being permitted to do so agree as set forth herein.

I understand that my/my child's voluntary participation in the EPE Program includes the risk of injury that may range in severity from minor to disabling to even death. I assume full responsibility for any risk of personal injuries or death to myself/my child or others or property damages arising from my/my child's participation in the EPE Program. I agree to forever RELEASE, HOLD HARMLESS, AND INDEMNIFY the Collaborative, its member school districts, and its current and former directors, members, employees, volunteers, and agents (the "Releasees") from all claims, liabilities, losses, damages, causes of action, and/or expenses, including attorney's fees that have arisen or may arise in the future in connection with my/my child's participation in the EPE Program, including for personal injuries or death to myself/my child, personal injuries or death to others, and property damage arising from my/my child's participation in the EPE Program. I further understand that my/my child's participation in the EPE Program will involve activities off of Collaborative property, and agree that the Releasees shall not have any responsibility for the condition and use of non-Collaborative property.

I/my child agree(s) to abide by Collaborative Student and Family Handbook and Policies & Procedures Manual, codes of conduct, and disciplinary procedures, and to abide by all instructions and decisions made by teachers, staff, and those in authority while participating in the EPE Program. I agree that my/my child's participation in the EPE Program may at any time be terminated for failure to follow these rules.

**RELEASE FROM LIABILITY AND INDEMNITY AGREEMENT**

I/We, the undersigned parent/guardian/legal representative of \_\_\_\_\_ (student name) do hereby consent to his/her participation in \_\_\_\_\_ (activities and/or field trips) on \_\_\_\_\_ (date(s)) and in consideration of his/her being permitted to so participate, I/we on behalf of myself, my heirs, my agents, my representatives, and on behalf of \_\_\_\_\_ (student name) do forever RELEASE, acquit, discharge, and covenant to hold harmless and indemnify, the Valley Collaborative, and its current and former directors, members, employees, servants, and agents, from any and all actions, rights of action, causes of action, charges, and/or claims, in any way related to and/or arising from, directly or indirectly, all known or unknown personal injuries or property damage or death, which I/we may now or hereafter have as the parent/guardian/legal representative of said minor, as well as any action, rights of action, causes of action, charges, and/or claims which said minor has or hereafter may acquire, either before or after he/she reaches the age of majority, resulting from, relating to, or in any way connected to, his/her participation in extracurricular activities and/or field trips run by, sponsored by or related to the Valley Collaborative.

In addition, I/we, as parent(s)/guardian(s)/legal representative(s) of said minor, agree to indemnify the Valley Collaborative and its current and former directors, members, employees, servants, and agents, in the event that any action, charge, and/or claim, is brought against the foregoing, which is in any way related to and/or arising from, directly or indirectly, my son/daughter/student's participation in extracurricular activities and/or field trips run by, sponsored by or related to the Valley Collaborative.

I/we understand and acknowledge that all Valley Collaborative handbook(s), Codes of Conduct, and all school disciplinary procedures apply and are in effect during all extracurricular activities and/or field trips run by, sponsored by or related to the Valley Collaborative. I/we also understand and acknowledge that my son/daughter/student's participation in any extracurricular activities and/or field trips run by, sponsored by or related to the Valley Collaborative is expressly contingent upon his/her abiding by the rules and procedures established by the chaperones, sponsors, officials and/or employees of the extracurricular activities and/or field trips, and that he/she must obey the same. I/we further understand and acknowledge that the possession and/or use of any and all forms of alcohol and other controlled substances under the laws of the Commonwealth of Massachusetts is strictly prohibited during extracurricular activities and/or field trips run by, sponsored by or related to the Valley Collaborative.

I/we agree that Collaborative personnel are the sole guardians of \_\_\_\_\_ (student's name) while he/she is participating in extracurricular activities and/or field trips run by, sponsored by or related to the Valley Collaborative, and hereby authorize medical care and/or return travel to school property if they in their sole discretion deem it to be in \_\_\_\_\_ (student's name) best interest.

We have found it to be very beneficial to use photos, audiotape, and videotape in our classrooms in order to:

- Help student express themselves
- Improve communication by using pictures to describe situations and sequence events
- Facilitate understanding of routines, schedules, and roles
- Improve communication with parents by allowing them to view their child's performance at school
- Enhance students self-image and self esteem
- Heighten student understanding of group processes, sequencing of events, visual processing, and memory

**Permission to Publish Photos on Valley Collaborative website**

Photos of classroom activities, field trips, and school events enrich the school's website ([www.valleycollaborative.org](http://www.valleycollaborative.org)). Parent/Guardian consent is required to allow the faculty to publish photos containing students on the school website. To protect students' identities, last names or other personal information of students will not be published on the website. Only faculty will be allowed to add photographs to the school website. For further information please refer to the Children's Online Privacy Protection Act of 1998 ([www.ftc.gov/ogc/coppal.htm](http://www.ftc.gov/ogc/coppal.htm)).
