

Immunizations:

Immunizations, also called vaccinations, are important for keeping your child, other children and the school staff healthy. The School Immunization Law, Chapter 76, Section 15 of the General Laws of the State of Massachusetts requires all immunizations must be up to date for children to attend school in Massachusetts. This law also allows for the school district to exclude any child from school whose immunizations are not up to date.

Before your child can attend school, a certified record of immunization for your child's doctor is required. All records must include dates in full.
