Student Health Packet

School Year 2016-2017

Valley Collaborative

Health Office

*40 Linnell Circle, Billerica MA 01821 * Tel: (978)-528-7808 * http://www.valleycollaborative.org*

Dear Parents/Guardians,

Welcome to the 2016-2017 school year at Valley Collaborative. Please find our health forms enclosed. Every year we require new forms to be filled out so we can ensure that we have up to date parent/guardian contact information, medication, and any other changes that may have occurred in the past year. Our number one goal is the safety of our students.

If you student requires medications during the school day or has a special medical condition such as allergies, or seizures please contact the health office at your child's school as additional forms may be required.

- Please be aware that the **Parental Permission for Standing Orders** form must be signed by a parent or guardian for the nurse to administer any of the over-the-counter medications such as Tylenol or Advil.
- Up to date **Immunization records** are required to be on file in the health office Students can be denied entrance to programs if immunization records are not on file.
- **Physicals** are required within the first year of enrollment and every three years thereafter.

All medical forms included in this packet are required by the Mass. Dept. of Public Health. ***Please be advised that if we do not have up to date immunization forms on file your son/daughter may be denied entrance to the school, until the forms are received.*** The Massachusetts school physical record and immunization record sheets are attached in this packet. Contact your student's school nurse if you are unsure the status of your child's records

All forms should be sent to your student's school health office. Do not hesitate to call the health office with any questions. COMPLETED PACKET MUST BE RETURNED BEFORE THE STUDENTS FIRST DAY OF ATTENDANCE.

Thank you,

Jessica Scalzi RN, BSN

PARENT/GUARDIAN AUTHORIZATION FOR PRESCRIPTION MEDICATION/TREATMENT ADMINISTRATION

Student's Name:____Date of Birth:________________________

Please initial all that apply:

☐ I consent to have the program nurse or trained school personnel designated by the program nurse administer prescribed medication to my student.

☐ I give my permission for student to self-administer medication/self-treat, if the program nurse determines it is safe and appropriate.

☐ I give permission to the program nurse to share information relevant to the prescribed medication/treatment administration as he/she determines appropriate for student's health and safety.

The school may only hold a thirty day supply of medication and that medication must be delivered to the program nurse by a parent/guardian or sent with student in a locked box provided by the family.

Parents/Guardians may retrieve the medication from the school at any time: however, the medication will be destroyed if it is not picked up within one week following termination of the order.

Seizure Protocol

PROTOCOL:

1. All individuals' physical safety will be insured at all times.
2. **For seizure lasting more than 5 minutes 911 will be called & individual will be transported to nearest hospital.** (An exception will be made if a physician specifies in a physician's order.)
3. For students who exhibit any seizure like activity and do not have a current seizure diagnosis **911 will be called immediately & individual will be transported to nearest hospital.**
4. Guardian/parent will be notified whenever any seizure activity has taken place.
5. Students with a diagnosed seizure activity must have protocol signed by Physician, in addition to an Individualized Health Care Plan, on file.
6. When possible, two staff members should be present when an individual is having a seizure, one staff to maintain safety, one staff to make phone calls if necessary.

PROCEDURE:

1. As soon as seizure activity is noted, a safe position will be established either in their chair or on the floor.
2. Remove any furniture or equipment that may pose as a safety issue.
3. Loosen clothing around neck and chest and release body jacket if wearing one.
4. Turn person onto side or if sitting tip head slightly forward.
5. Never place anything in the mouth (tongue depressor or airway).
6. Do not try to restrict the person's movements.
7. Stay with the person until motor segment of the seizure is over.
8. During the seizure observe the characteristics of the seizure including the following:
   - ❑ Precipitating factors (fever, menses, loud noise, bright lights etc..)
   - ❑ Time of onset
   - ❑ Aura
   - ❑ Clinical progression of the seizure activity (from arm twitching to generalized activity) skin pallor, cyanosis of tongue or around the mouth
   - ❑ Loss of consciousness
   - ❑ Duration of motor activities
   - ❑ Post-ictal state (sleepy, lethargic, confusion, crying, vocalizing, and headache).
9. Document the seizure on Seizure Activity Flow sheet.
10. As per protocol, inform parents/guardian that seizure activity has occurred.

Student's/Client's Name:____Date of birth:____________________

Parent/Guardian Signature:____Date:__________________________

Students with a diagnosed seizure activity must have protocol signed by Physician. ***Form valid for one year from date signed.***

Physician Use only

Please use the above protocol for my patient.

Please follow alternate protocol for my patient. Protocol is attached.
